Thread: [Thread design contest - Price is worth \\$105!](#)

LootHF - March 24, 2014, 12:56 pm

Welcome to the Casino Revenue thread design contest!

I need a thread design for my upcoming eBook - Casino Revenue. The winner will get a copy of the Advanced package of the eBook. This is not some regular Hackforums eBook, this is a working and private casino trick.

This does not involve:

- Roulette
- Slots
- Betting software
- Public methods
- Content locking
- Building websites
- Getting referrals

Proof

I can show live proof of the method in action! I can make about \$10 in 2-3 minutes.

Details: <http://pastebin.com/Y95n9dDn>

If you decide to join the contest - Thanks a lot!

If you just read it for fun - Thanks for reading. Have a nice day!

I think he did not. And yes, \$100 for the Advanced package.

I've showed several people some live earnings and they all think I should charge way more.

Clave - March 25, 2014, 9:31 am

Can I see you make some earnings? I'm bored as hell xD

I do have join.me but it would reveal 80% of the method.
