Thread: [View Warning log when warning level is 0](#)

NegativeRep - March 24, 2014, 9:55 pm

I'd like to see my Warning history, I know I've had 1 warning at some point but I don't remember what for. But I cannot see what my history was if I don't have a warning level right now.

Any form of website url harry potter Dumbledore Gandalf the grey wizard work I can do to see it?

Pillows - March 24, 2014, 9:55 pm

I don't even think Mods can see the history after it's gone. I'm pretty sure that it's a MyBB thing.

NoSuchAgency - March 24, 2014, 10:00 pm

I don't think it's possible. +100 for liking RWBY though.

Skitlz - March 25, 2014, 12:40 am

I believe it's not possible, I'm not sure but maybe you can contact 'Snorlax about getting a Free User Script created for this, I doubt it's possible though.

On the bright side, As this is not possible.. Make a suggestion thread suggesting for this feature to be added for let's say just UB3R's, Good luck!

Omniscient - March 25, 2014, 12:53 am

Only staff can view expired warnings and that's how it will remain.
