Hey dude, Can you send me a vouch copy pls :D ?

SIM-1567847 - March 29, 2014, 1:15 pm

Hi everybody. Bitt was nice enough to give me a vouch copy of Limitless and I'm amazed by the information inside of his eBook.

It goes over a unique yet simple method that has personally made me well over \$400. I didn't know that there was another user who knew about this, but he's made it into one of the best eBooks on HackForums. If you want to start making money (\$250 is an understatement), then I recommend you purchase this eBook.

Does this method include dropshipping, or in any way selling a physical product?

No this doesn't require selling anything or drop shipping.

Etho - March 29, 2014, 4:10 pm

Does this method include PPD, PPI, CPA? Do I need an investment?

You should include a F.A.Q.

Edit: I did not enjoy this method and I found a free eBook that had a very similar method. I asked for a refund but OP is just ignoring me. Link to scam report:

I gotta say, after reviewing this eBook I can honestly say I learned something new. I haven't seen any methods like this so far after going through tons of eBooks and this is by far the easiest way to make money. I don't see how you couldn't make money off of this. I will try this out soon and post results. Don't hesitate to buy.

Why would I want to do that? I'm not trying to get a bad reputation. I've also said in the thread if you're not satisfied with your earnings I'll send you a full refund. Even if you only make \$200 /day and you're not happy, all you gotta do is ask for a refund.

Cletus Kasady - March 30, 2014, 3:22 am

First off I would like to say this Ebook will earn you money. The method is not 100% unknown but is presented in a unique way with unique tips and such. The Ebooks presentation is simple and easy to read, making the guide easy to follow for beginners or master earners. I will be trying this method out for myself in a bit and will probably update this post with Earning proof.

ok. Now this book seems quite promising.. and unsaturated too as not so many vouches or payment proofs are here. So i may b give it a try,, but please answer my some queries.

I am full time online internet marketer.

I own multiple High PR websites with good traffic on it.

I earn good with Google Adsense.

I have facebook pages having more then 700K fans.

I can design and develop websites with html,php,js, etc so a part time web developer.

Now tell me is this book is for me?? because almost all of the books i have purchased here were crap (except few ones through i still didnt able to earn directly by that method but thats quite a good knowledge for me though).

And is there any investment required for setup? and whats the payment method? will it work for india-bangladesh,Pakistan???

Purchased this E-Book as I've got nothing better to do in the hospital. I can vouch that I haven't seen this method before, but

Yes - this method requires a very small (under 10\$) investment.

No - this method does not guarantee you 200\$ a day (you'd be stupid to believe any e-book does)

This is a very E-Book to understand, and even a child could pick it up and make profit. The only issue I see is, people... you are not guaranteed business with this, and it is competitive.

All in all, it's worth the money if the right people are around. If not, it's a complete waste.

Hope this helps you guys decide as to whether or not you want to purchase. I personally want a refund, due to the fact that it is not guaranteed nor is it reliable.

Just look over this thread, there are A LOT of people being ignored by this guy.
He only 'hears' the positive replies and totally ignores the unsatisfied customers.

And another thing, if you see somebody posting a Print Screen, it doesn't necessary mean that he's earning that money.

It's not hard to pay somebody \$10 just to post a fake PrintScreen and pretend that he's making money with your E-book. Just think about it.

I complained at first after purchasing this eBook, but it turned out i was simply being impatient. Buddy and I have different timezones, and because of that, it was a bit hard to communicate. Anyways, we ended up chatting on Skype eventually, and because of that, I turned from complaining to turning one of the biggest profits i've made. Buddy helped me make my first \$1,000 online in just a day, and more money came a few days afterwards. This method works 100%, and you'll earn more the more effort you put into it, its that simple. Does this include any public method of using Fiverr to resell gigs for upped prices?

JWhitez - April 11, 2014, 5:23 pm

Bought this as a random shot in the dark yesterday, and it turned out to be one of the best investments I've ever made. I would HIGHLY recommend purchasing this while it's on sale, you won't regret it. Trust me.

This screenshot of my balance was SOLELY made in the last day and a half, using a method I've never even heard of before. Thank you so much, and I'm back to making myself some more spending money. :)

Reborn Angel - April 11, 2014, 9:39 pm

(READ) Honest Opinion:

Very good and super simple method but most people know about it. I would rate the method a 8/10 if you had a little bit of time on your hands. Does not make as much money as stated unless you have very well marketing skills.

"Buddy" the owner on the other hand, never replies to anybody who is in need of a refund or has something negative to do with the post. He has several scam reports which are all legit and he still fails to fix the problem. The scam reports have proof he read the messages and never responds also, just like he will not respond to this or even care. He will never act like it even was said. For example...

Lets say these message(s) I am showing are the replies to this thread:

Great love it.

Love it sweet.

Buddy, I would like my money back. Originality was a 1/10 and am not making money from this. Please PM me or reply.

Love it.

(so on and so on)

Buddy: (Quotes the "thanks") Thank you, you are making wicked money!

Love it.

Love it.

Ok so clearly you read my reply so I sent you a PM and it shows you read it. Now I am getting mad I will post s scam report.

love it.

Buddy:(Still ignores customer) Thanks guys!

That above was a example not word for word. If you buy this make sure you have money to blow because if you do not like it, you will not get your money back. Oh and even ones who bought premium or whatever still are getting scammed.

Kind regards,
Bar Paly. :)

EDIT: I would also like a refund because I already knew it and it does not make much money and takes very well marketing skills.

EDIT #2: He just proved my point! In my post I said something against the rules regarding giving the

method for free since most people already know and dont want scams happening.. And IN MY POST, it clearly said I wanted a refund.. He messages me telling me to remove my message or he will get staff involved. Yet has said anything to the refund I demand.

Only going to reply to this accusation once and for all:

I refund anyone who gives the method a real shot and can provide sufficient evidence of doing so, I've helped countless members make money online the difference between you and them are; you're simply just too lazy to give it a shot. I do NOT tolerate immature kids spending their dad's money, wasting my good time, just so they can give up on the first day. It's ridiculous. Why dont you use this method yourself?

Why is this still the top advertisement? People above me are posting they cant get responses and there are scam reports open? Does no one else see how many people join and apparently "buy" this ebook? Who joins and instantly trust the forum enough to buy something? it took me a month or two before I actually started buying on hackforums. No way all these noobs are coming, making a few posts then buying this.

<https://i.imgur.com/Tut0nun.png>

Im sure i will get negged for this but honestly how else can you explain this?

Cant even make the claim I photoshoped because i left the post numbers in there and you can go back in the pages and see them yourself.

Harbo5 - April 23, 2014, 6:06 pm

Do NOT buy this eBook!

My opinion on the eBook: This is a horrible eBook. It is a public method and should be free, he should not be selling this. The eBook is incredibly low quality and very overpriced. The worst part is that "refund" is fake. Don't make any money? Guess who doesn't refund you! Buddy Belaire.

Buddy Belaire is a scammer in general. I opened a scam report on him, take a look at it, <https://hackforums.net/showthread.php?tid=4131110> . My thread shows how Buddy Belaire ignores anything negative that you send him. I'm sure he'll ignore this post, as he has done with all my other posts. Don't buy from this scammer.

Do NOT buy this eBook!

Gucci - April 23, 2014, 6:21 pm

I was really interested at first, until I viewed the rest of the thread. It seems that your customer support isn't up to par, thus this ebook/method needing to be self explanatory.

This is well worth the money and it's truly eye opening! I made over \$500 in just 13 hours with 10 minutes of "work" this is insane!!

It goes over a unique yet simple method that has personally made me well over \$400. I didn't know that there was another user who knew about this, but he's made it into one of the best eBooks on HackForums. If you want to start making money (\$250 is an understatement), then I recommend you purchase this eBook.

I have to admit i've never heard of it before or anything like it and it just blew my mind how easy it was. I have to admit that at first I didn't feel I was going to earn anything but after receiving support from Vaksar I managed to make over \$800 this week using the method! ?

I'm very appreciative and I would recommend this ebook to anyone who actually wants to learn how to make an income online!

BANG! MULAH BABY! ???

For everyone that is wondering if it works - YES! You have to put a little work in it but it's not hard and its the only ebook that has ever worked for me!

Thank you Vaksar for this amazing ebook!

I haven't seen any methods like this so far after going through tons of eBooks and this is by far the easiest way to make money. I don't see how you couldn't make money off of this. I will try this out soon and post results. Don't hesitate to buy.

and it turned out to be one of the best investments I've ever made. I would HIGHLY recommend purchasing this while it's on sale, you won't regret it. Trust me.

This screenshot of my balance was SOLELY made in the last day and a half, using a method I've never even heard of before. Thank you so much, and I'm back to making myself some more spending money. :)
