Everyone,

JappaR who claims he is a trusted member here. I gave me \$5.00 to do a task for me. He agreed to all the terms and has sent me 30 PM to get this work is a scammer. Took my money and did not do what we have agreed on.

Please help me get my money back.

Thanks

Hey! Here's a crazy idea! Learn to hack and you wont have to rely on other people and things like this wont happen.
It so crazy it might just work!
Jesus..
