Likes

Roblox

Snapchat

Soundcloud

Tinychat

Twitch

YouTube That's a total of 20 services, with many more to come

What does it look like?

Sounds good, but how much does it cost?

It only costs \$9.99 \$7.50 c:

You can pay in BTC or Paypal, or more recently added, Omni Coin c:

PM me for my Skype

Have a suggestion?

Don't hesitate to tell me, I'll try and add it c:

Update Log:

Code Version 3.0.1.0:

Fixed various bugs (Connection Errors for some checkers)

Up'd the max workers (Threads) to 25 from 15 for faster checking

This looks extremely useful, just what I've been looking for. Thanks for this Furry. ?

Edit: Just purchased there and I can say this is one of the best tools out there. Saves all available outputs to separate text files that pertain to services. Can handle large amounts of data and still handle the stress. I highly recommend purchasing-- well worth the price!

There's a lot different between his and my checker

First off, his only goes with one name at a time, mine loads a list

Also, I'm going to take a wild guess and say that the Xbox and Tumblr checkers don't work (At least, not after 50+ requests for tumblr, and banned tags for Xbox)
