Diskussable is a forum dedicated to changing the way that people promote content and earn money online.

You can post:

- Videos
- Pictures
- Links
- Or just chat

You can also earn money by:

- Completing offers
- Chatting in a chatroom
- Watching videos
- Writing articles
- ...and much more on the way!

You earn credits for each activity:

Forum Reply: 4 credits

Forum Topic: 8 credits

Watching videos: 3 credits per video

Completing offers: TBD

Chatroom: Pot earnings (chat messages divided by total active users, so that everyone earns more)

Writing articles: 60 (you)/40 (us) revenue sharing! You write an article, promote it, and let the money flow in! We calculate how much you ad has brought in and credit you the appropriate amount of money!

Then you can redeem the credits in the Shop, for both gift cards and physical items, a \$5 Amazon GC and \$5 PayPal is 2000 Credits.

Help us change the way that people can earn online!
