Hidden™ - March 31, 2014, 7:29 pm

Thank you for the share, I really appreciate it.

topLevel - March 31, 2014, 7:34 pm

Hey this looks kinda handy thanks for your contribution.

p.s this is my razor scan <http://razorscanner.com/result.php?id=296858>

Question tho how often does it download the file lets say if you have startup/persistace on?

loopy90 - March 31, 2014, 7:48 pm

Question tho how often does it download the file lets say if you have startup/persistace on?
The downloader just runs once. It downloads the link you gave it and executes the file.

1337 - March 31, 2014, 8:03 pm

Nice tool gonna try it now.
thanks so much.

QuZa - April 1, 2014, 6:11 am

nice tool, i downloaded it and it looks very professional.

blackair01 - April 1, 2014, 6:32 am

i downloaded it!! very good tool, thank you!

franzl - April 1, 2014, 10:00 am

Thak you for this tool. I have a few questions. What is the polymorphic encryption for, and how is it used?

soulgardian1 - April 1, 2014, 10:32 am

I scanned this file. Seems clean to me. Very appealing to the eyes.

franzl - April 1, 2014, 10:38 am

(Apr 1, 2014 10:32 AM)soulgardian1 Wrote: [\[CITE\]](#) I scanned this file. Seems clean to me. Very appealing to the eyes. Why don't you post the scan result? Where have you scanned it?

loopy90 - April 1, 2014, 11:33 am

(Apr 1, 2014 10:00 AM)franzl Wrote: [\[CITE\]](#) Thank you for this tool. I have a few questions. What is the polymorphic encryption for, and how is it used? Well, currently it's just used to encrypt text. I released this version just to get some input and see what else users want. So if you have any suggestions go for it.

armando2567 - April 2, 2014, 4:02 pm

Nice One I hope this makes me happy

Dexter - April 2, 2014, 4:06 pm

Why are you not selling this, I would totally pay for it. \$25 lifetime or something, I don't know.

Try to make it encrypt the downloaded URL and what not.

loopy90 - April 2, 2014, 4:17 pm

(Apr 2, 2014 04:06 PM)Dexter Wrote: [\[CITE\]](#) Why are you not selling this, I would totally pay for it. \$25 lifetime or something, I don't know.

Try to make it encrypt the downloaded URL and what not. It does encrypt the URL, take a look at the source code after you build it.

GreyPhantom - April 2, 2014, 5:18 pm

Can I have the program with features? And also the Theme, it's so awesome. Please share it to me! TIA

loopy90 - April 3, 2014, 5:25 am

(Apr 2, 2014 05:18 PM)GreyPhantom Wrote: [\[CITE\]](#) Can I have the program with features? And also the Theme, it's so awesome. Please share it to me! TIA

Just click the download link... Also if anyone has suggestions for v2 please post them or shoot me a PM

bobkinglol4444 - April 3, 2014, 1:16 pm

Thanks looks awesome
going to try it out

?ain - April 3, 2014, 2:51 pm

This will be useful in the future :D

Vesta - April 3, 2014, 5:49 pm

Very cool man, thanks for this.???

Dexter - April 3, 2014, 11:38 pm

Encrypt the application just like Dark Nebula downloader.

Even if the file is detected, by using a downloader it will still get executed. Not sure how that works, but hear it is possible.

loopy90 - April 4, 2014, 12:18 am

(Apr 3, 2014 11:38 PM)Dexter Wrote: [\[CITE\]](#) Encrypt the application just like Dark Nebula downloader.

Not exactly sure what you mean, from what ive read all dark nebula is, is a downloader that allows add more options(bsod, startup, etc...) i didnt see anything on it running the file if it got detected by AV.

byggvraa - April 4, 2014, 12:52 am

Okay i'll try that when the school is over :))

Dexter - April 4, 2014, 2:44 am

(Apr 4, 2014 12:18 AM)Loopy™ Wrote: [\[CITE\]](#) Not exactly sure what you mean, from what ive read all dark nebula is, is a downloader that allows add more options(bsod, startup, etc...) i didnt see anything on it running the file if it got detected by AV.

The first line says:

Tired of shit crypters?

I personally talked to the owner, he said that if the file is around 10/60 detected, it can easily be ran with any problems.

I am not allowed to post images of PMs, but that is what he has stated multiple times, both on PM and in thread.

Thought you would manage to do the same.

Maybe he obfuscates the file, no idea really

terrorxq - April 4, 2014, 4:24 am

Hi Loopy, thanks for this, is there lol a manual for us noobs? IE

the virus besides the options there can u add lets say a bot in for keylogging/monitoring

What purpose does the polymorphic encryption serve for the virus? the payload?

loopy90 - April 4, 2014, 9:30 am

Well i was able to obtain a copy of this program, and it is literally the same as mine except he has more features. However since this downloader stuff seems so popular i might dedicate a whole project to it.

Scufix - April 4, 2014, 9:39 am

Thanks for the release, trying it out now.

BBP_2012 - April 4, 2014, 11:17 am

thanks a lot, i'll try this out now

digordi - April 5, 2014, 12:02 pm

Thank you for the share, I really appreciate it.

juztrandom - April 5, 2014, 12:51 pm

This is the most awesome kl ever... thanks bud

terrorxq - April 7, 2014, 6:13 am

Hi Loopy,

An icon library would be a cool feature to have in the program, I tested it out yesterday and all is well i didnt get the polymorphic encryption bit

Thanks once again

atoneus - April 7, 2014, 7:44 am

very useful and clean..thx for sharing

loopy90 - April 7, 2014, 10:57 am

Thanks once again

Thanks for the input, and yeah the polymorphic encryption was just kind of a last minute thing to fill up some space.

ClaaSiCs - April 7, 2014, 12:49 pm

Im trying to put an icon in as im being forced but as i do so it's saying the icon can be found in "Me/AppData/Roaming/Icon.ico" ?

Anything i can do to fix this issue?

loopy90 - April 7, 2014, 3:22 pm

Anything i can do to fix this issue?
Yeah, just set the icon location again and it will work.

loopy90 - April 13, 2014, 4:59 pm

Currently working on V2, any suggestions for what to be added?

jkrules420 - April 13, 2014, 11:34 pm

Cool tool man, the downloader is useful for me :) thanks for the share, I appreciate it.

nimeshz - April 15, 2014, 7:06 am

thanks op, this is an excellent tool and really effective :)

loopy90 - April 15, 2014, 3:27 pm

Thanks for the input guys, If anyone has suggestions for v2 please post them!

loopy90 - May 9, 2014, 8:18 pm

Still taking suggestions for v2! Hoping to release it soon.

ikbantton - May 10, 2014, 12:28 am

Nice share bro. Keep up the good job...

Rams3s - May 13, 2014, 4:24 pm

What dependency have the builded downloader?

Really nice share BTW :)

loopy90 - May 14, 2014, 1:38 pm

(May 13, 2014 04:24 PM)Rams3s Wrote: [\[CITE\]](#) What dependency have the builded downloader?

Really nice share BTW :)

Only requires net 2.0 :) so it basically works on all windows systems that are on XP SP3 and above.

jkrules420 - May 14, 2014, 9:53 pm

This is a cool tool, thanks for the share man, It will be useful for me :)

ZEROBUG - May 15, 2014, 2:07 pm

thanks for sharing this pack !!! ;) I scanned this file. Seems clean to me. Very appealing to the eyes.

loopy90 - May 17, 2014, 11:43 am

Thanks for all the input, if you would like to see anything specific in the 2.0 release then post your suggestion here!

LGxTragic - May 17, 2014, 1:36 pm

This is a great tool. but the Virus tool does not work for me. For some reason.

cowman - June 16, 2014, 1:18 pm

I got an error while building the silent downloader, file\user\AppData\Roaming\icon.ico could not be found. What do I do? Also even if the rat is not fud, the downloader is still able to download the rat from file host and execute on victim and bypass their av?

loopy90 - July 27, 2014, 1:03 pm

(Jun 16, 2014 01:18 PM)cowman Wrote: [\[CITE\]](#) I got an error while building the silent downloader, file\user\AppData\Roaming\icon.ico could not be found. What do I do? To fix the error close then re open the application. And no, this does not FUD your application on runtime, only scantime.
