Thread: [Balls.](#)

#Doge - April 2, 2014, 6:56 am

Made this a few days back.

Decided to post it here to hear your feedback.

Made in C4D, finished in Photoshop

Cnc.

Spoiler [\(Click to View\)](#)

erm, proof?

That's actually a very interesting image. Without tilting my screen, I can't see the other balls in the background.

I personally like it.

Right - April 2, 2014, 8:45 pm

I'm liking the feel man 8/10! Keep it up ?

Rhy1v0 - April 2, 2014, 8:46 pm

Looks very professional, I like it :) well done.

Bad Meets Evil - April 2, 2014, 11:52 pm

It would be nice to see a screenshot of the model in C4D.
