You get vouches from your buyers that like your service... you need to earn them with good product... GL.

Give out a couple of free designs and ask them to vouch on your thread if they find it high quality.

Just give out a free thread design to a HQ & trusted member.

Make me a free signature with my name in sexy green letters with a leprechaun on the right and you have your first vouch.. ;)

Make me a new sig and I'll vouch for you!

But like other people said, give people free copies of your work and ask them to vouch/give their honest opinion

Give them copies of what you're selling, or if they have purchased, they often leave a vouch if the deal went smooth.

Get your friends (if you have any) to vouch for you.

Looks sweet, I prefer something not as flashy though, something similar to my current sig! Thank you though! =)

User whipped together I nice little sig for me in a matter of minutes. Exactly what I wanted, too! Good luck with sales OP!

I see this thread is same as "free gfx service for vouches" so I'll give it a go aswell,
Make me a signature that has something to do with my username "Perfectionist" and you'll have my vouch aswell. ;)

Not bad sigs. Anyway yes you just give out some free copies or "vouch copies" or just ask people you know :P
