Thread: [Forum Spam Bot + PM Spam](#)

TehHaxx - April 4, 2014, 3:19 am

Just wondering if its possible if its possible to code some programme/script which can send mass pm's to people on forums. Usually 6 person limit per message, so it grabs usernames of people online or from the member database and PM's them.

Also to spam on forum threads as well?

LijpeMD - April 4, 2014, 3:25 am

Yes, it is possible.

Good luck !!

Cairns - April 4, 2014, 5:13 am

Very possible. I made one of these in the past for my own forum just for the sake of educational purposes lol

Otis???????????????? - April 4, 2014, 5:36 am

Yes its possible. Instead of using their username, you should use their UID considering they can simply change there username whenever they want if they are L33T/UB3R.

Great way to make money on this gameskql
it's 6 year old thread... avoid digging old threads...

TurtleX - March 5, 2020, 2:35 am

i used to have a script on my old computer coded in vb.net i will see if can find it
