This is what I said to Krew. I suggest you read it.

Quote:There are about 13M (13,000,000) omc in circulation. With \$0.1 per 1000, you are telling everyone we can buy all omcs for \$1,300. This isn't dogecoin you moron.

Anyone that sells \$1 for more than 30 omc is an idiot.

In my opinion, \$1 for every 20-30 omcs would be the best rate that everyone will accept. Let me remind you that it is only getting harder to mine omcs. The difficulty just quadrupled in the last hours.

Fair enough, I've averaged out the rates (so \$1 per 25) in the main thread. I'll have an exchange site going for myself soon.

I don't know jack shit about what prices I'm buying at, so hit me up with offers and I'll list my deals here to let other people know what I'm buying for.

BTW, this is Paypal only.

I don't know how much exactly, but I do know only someone really stupid will sell at that rate considering I have been mining all morning and seeing how many omcs are being mined.

reama - April 5, 2014, 4:07 pm

Well for now, People won't sell any Omnicoins until there is a average price range. I don't think you'll find any sellers at the moment.

I'll do \$1 for 40 OMC if you're up to it. Most people don't even think it's worth that much yet.

Bitmoney is selling for \$1 per Omnicoin.lol. :) I am not selling. I might just hold :D until price rises more but always pm me if you guys have good offer!

Ventures - April 5, 2014, 9:05 pm

Hyping the price isn't going to help. Sh1eld has 8k of it. Selling 1 OMC at \$1 is going to make him \$8k in one day. And selling it at 20 OMC is going to make you \$400 in one day.

I don't care if the price is going up later, what matters is right now. For all ANYONE knows, this could be a giant pump-and-dump and OMC would go nowhere, ESPECIALLY if only a few users hold the majority of the currency.

It's a free market, anyone can sell for what they like.

Just because you aren't making a profit 1-2 days after launch doesn't mean you can flame others.
