**Socrates????** - April 5, 2014, 7:33 pm

I'm looking to make a completely custom vcw but the problem is, that i dont know a good cam show site where its cheap the people are good looking and accept paypal. Any advice?  
-dan ?

1. Find your local hoe/whore
2. Ask them to do this & you'll pay them
3. Bring them to your house & record ?

Could be awesome if any hoes from my town would do it, but i doubt :)

It'd be so HQ but i'd never have the balls to ask. In a situation like that anything could happen!  
Believe it or not... i don't think my town has a local whore but who knows. The hunt begins.

I know plenty of pothead females & I think you mean crackheads , because your making it seem like stoner chicks would do anything for money

You can easily achieve this by hiring escorts off Backpage and then renting a studio space with custom backdrop, The pack will end up costing around \$650-800 to make but in the long run its an investment.

Best of luck!

There's much cheaper and efficient ways than hiring prostitutes.

Herpa derp; Cam girls obviously, but what cam chick is going to give consent of distribution of a product? Not to mention most online cam girls look like crackwhores I rather have the chick in a room signing documents than to turn around and get sued or brought to court later on.

Not to mention you achieve better quality and an seamless transition this way. :) Sure, there are cheaper ways but cheaper usually means LQ and terrible quality.

No, no, and no. Just because something is cheaper doesn't mean it's worse than something that's more expensive. Seamless transitions have been achieved and can easily be achieved through flash and manycam, with some simple editing skills.

As long as you have consent in written form, you're not going to be taken to court so if you know what you're doing, you'll be completely fine and able to release a quality product.

Actually that isn't always true an contractual digital signature isn't legally binding most of the time unless you have an notary present that can print, stamp & witness the contract. Lets get real here if a business is going the "cheap route" i'm certain they don't have money to spare on a notary & filing fees. ?

I think you're mistaking what i'm saying, I wasn't saying "cheaper is worse" i was saying an cheaper product isn't always an legal product and many times its creators cut-corners. As a legally registered business if i'm taken to court tomorrow i can pull-out signed contracts from each and every model we've ever worked with.

Can't say the same for an business providing an 'cheaper' product, usually cheaper means lack of funds and/or unable to pay for x ... so what makes us believe they will pay to maintain an legal business. Either way this post isn't about the legalities of VCW businesses but rather to assist OP achieve his custom VCW and get the most quality out of it. @OP as i stated above escorts would be your best bet. #trulyunsaturated

Saying mine aren't legal... Hmmm. Great bash is great. You're contradicting yourself, saying "Cheaper isn't worse" then saying it's worse because they're not obtained legally? Calling me poor, too. Keep hurling the insults! :D

The majority of people who are looking to purchase VCWs are looking to increase their profits, not lower them. By supplying lower priced VCWs, I can sell the quota/maximum and get the next one faster. I may not make much in profits but I am not in it solely for the profits, I am doing the community a service. Save your last breath and don't bother responding. Thanks.

Edit: Don't play the "innocent" card, we all know you're being passive-aggressive.

To help the OP, your best bet is to find someone who has created past VCWs to create you one. There are many people who have the spare time to do it, and can do a quality job. Some will be proficient in Flash, some may be proficient in ManyCam, then you get those who are Omniscient; knowing everything.

Its obvious you have taken offense to my statements i'm sorry to hear that's how you feel, For the record you aren't the only VCW vendor on this forum. I didn't point any fingers at all i'm merely stating the harsh reality, You're under the assumption that VCW's are only used for eWhoring when that isn't the case at all.

I can say with certainty that a great amount of customers within our client-base use VCW's for alternative purposes non-related to eWhoring, few even being within the private investigating fields. I honestly don't understand why you're lashing out your anger at me when i've never bashed you within my statement, Also i never called you poor either nor 'hurled' any insults. I was stating facts about the pros/cons of cheaper alternatives which you've mentioned.

Either way this ISN'T an thread to flame or get angry about, I'm trying to help OP create his custom VCW's its obvious you're only here to troll and get butthurt.

@OP if you need any further assistance or advice getting started, Feel free to contact me any time via Jabber: dkwn@jabber.ccc.de.

Problem with websites is that it is nearly impossible to find an model that is willing cooperate with you, you can't just tell her "Im going to record you, stay still...okay?" because that doesn't work. Also it will affect transitions a lot if you are to do that, Have you tried hiring a cheap escort?

They're about \$40-50 an hour, If you're going to ask them to do this they might just give you an flat rate which is cheaper. Best of luck bud!

I feel it would be really awkward to get an escort. I'm pretty good at editing cutting stuff together, but keep in mind i have no intent to distribute this vcw. I'm the only one would use it so i feel it wouldn't be hard to use a website, i just have none that accept Paypal lol, thanks for the help anyways ill consider it! ?
