Thread: [Free Vanity OMC Address \[Omni Coin\]](#)

Ghetto~~ - April 6, 2014, 9:04 am

Hai c:

I'm generating vanity OMC addresses for people who want them c:

All you have to do is tell me what pattern you want

I can do 4-5 characters, preferably 4; 5 if case-insensitive

You can find an example of what a Vanity OMC Address looks like in my Signature c:

Disallowed Characters:

Capital O (o)

Lowercase p (P)

Zero (0)

(Apr 6, 2014 09:26 AM)vurezo Wrote: [\[CITE\]](#) Just a fair warning, by using this service you are trusting OP with all the OMC that is stored on said wallet.

If you don't trust me than don't ask for this c:

EDIT: THIS IS HOW YOU USE IT

Open Wallet > Help on top > Debug Menu > Console > Type 'importprivkey

REPLACE_PRIVKEY_HERE'

TheOpenBox - April 6, 2014, 9:06 am

Can you do Open?

This is awesome, thanks. ?

Stealth™ - April 6, 2014, 9:07 am

Can you make "Omni" for me?

Thanks :P.

Cryptography - April 6, 2014, 9:08 am

Can you make CRYPTO for me :D? Would appreciate that

Ghetto~~ - April 6, 2014, 9:13 am

(Apr 6, 2014 09:07 AM)Stealth™ Wrote: [\[CITE\]](#) Can you make "Omni" for me?

Thanks :P.

I did you two c:

I had to make some changes as vanitygen doesn't like me :c

(Apr 6, 2014 09:08 AM)Cryptography Wrote: [\[CITE\]](#) Can you make CRYPTO for me :D? Would appreciate that

I can certainly try c:

However, it's going to be case insensitive to cut back on power usage

Cryptography - April 6, 2014, 9:15 am

I'd gladly donate some OMC if you allow it to be all CAPS :D

Ghetto~~ - April 6, 2014, 9:16 am

(Apr 6, 2014 09:15 AM)Cryptography Wrote: [\[CITE\]](#) I'd gladly donate some OMC if you allow it to be all CAPS :D
Couldn't do that, as capital O isn't allowed :C
Sorry :c

Destroyer™ - April 6, 2014, 9:18 am

Can you make mine Penis?
Thanks man

Cryptography - April 6, 2014, 9:20 am

(Apr 6, 2014 09:16 AM)Furry~ Wrote: [\[CITE\]](#) Couldn't do that, as capital O isn't allowed :C
Sorry :c
What about

CRYPT?

Also sent 10 OMC :D

Narrate - April 6, 2014, 9:21 am

I would like "Maud" please :) This is pretty cool.

Ghetto~~ - April 6, 2014, 9:24 am

(Apr 6, 2014 09:20 AM)Cryptography Wrote: [\[CITE\]](#) What about

CRYPT?

Can't do that either,
Vanitygen is really stupid, it doesn't like very many capital letters after the o
I can do ocRYPT :c
Edit: Forgot to thank you for the coins c:
Thanks c:

Also, I'm going to downgrade my video driver so I can use oclvanitygen for faster times and more characters c:

Tenaxium - April 6, 2014, 9:25 am

Could you try doing tena for me?

Thanks!

BLURRYF?CE - April 6, 2014, 9:26 am

Just a fair warning, by using this service you are trusting OP with all the OMC that is stored on said wallet.

Tyson_08 - April 6, 2014, 9:46 am

Could you do Tyson?

Thanks in advance... :)

Ghetto~~ - April 6, 2014, 10:23 am

Did everyone's who has asked c:

(Apr 6, 2014 09:26 AM)vurezo Wrote: [\[CITE\]](#) Just a fair warning, by using this service you are trusting OP with all the OMC that is stored on said wallet.

This is true, but I won't do anything bad c:

Ghetto~~ - April 7, 2014, 2:06 pm

I gave a few more people custom addresses c:

Anyone else want one c:?

Composes - April 7, 2014, 3:51 pm

Could you do "Ethan" for me

Thanks :)

kawaii - April 7, 2014, 4:30 pm

Can I get 'tsuki' please?

Thanks so much! ?

tdlab11 - April 7, 2014, 4:57 pm

Hi, what do you use for your oclvanitygen's settings? Been trying to do this aswell but it doesn't work :/

my tries

oclvanitygen. -X 73 otdLab

tells me that valid bitcoin addresses begin with "1"

SIM-1166170 - April 8, 2014, 8:03 am

Can you get zach for me? c;

thx bby

Ghetto~~ - April 8, 2014, 2:01 pm

Try -X 115 c:

Also, I've done everyone else

Kung Fu Kenny - April 9, 2014, 2:52 pm

could i get it saying PANDA in it please? c:

?Boom - April 9, 2014, 2:54 pm

could i get Boom in it please

Ub3R_FAYG - April 9, 2014, 8:30 pm

If i could get this i would want SKID

cyberducky - April 9, 2014, 8:33 pm

It would be cool if I could get 'abide'.

Thank You.

Ombra - April 10, 2014, 10:42 am

Just pmed you about this ?

Ghetto~~ - April 12, 2014, 10:20 am

Sorry for the delay, guys

I finished every one's c:

Homie - April 12, 2014, 10:30 am

I'd like an address but have no idea how to set it up...nice thing your doing op.

BLURRYF?CE - April 12, 2014, 7:45 pm

P.S. For all of you who has an encrypted wallet, you have to decrypt your wallet before adding the private key(s).

```
walletpassphrase "REAPLCE_PASSWORD_HERE" 600
importprivkey REPLACE_PRIVKEY_HERE
walletlock
```

A?n?onload - April 12, 2014, 7:52 pm

Could you do 'h0b0' for me please? Thanks!

Crake - April 16, 2014, 11:19 pm

I'd love a "webdev" OMC address if you've got the time/power.

::TroJan:: - April 18, 2014, 1:34 am

Can you do "Trojan" for me ?

Thanks :)

JOKER - April 19, 2014, 6:13 am

Could you do "Joker" for me please?
