Beware of Blue Shark™ UID=1066842 !!

I bought plasmahttp off this hf member Duuzi UID=2168262 which was plasmahttp with hosting, 9-10 months left from the year he payed for. Topic is here:

<https://hackforums.net/showthread.php?tid=4115826>

Anyway i got the panel login, i could logon but when i asked for the admin panel and hosting panel info he referred me to blueshark, and i contacted him. First he changed my password, which was already strange but i said ok when i have the admin panel login i can change that myself. he has been ignoring me on Skype, and acting like its strange that i complain and want what i payed for.

I have been asking blueshark, who is a little indian kid with no understanding of what he does at all, for over a week to give me the details and logon. One thinks he can trust a member with a good rep, but that is far from true.

Today he disabled the server and plasma which is really low to do since i payed for it with money, and he repped me down to -8 with his lowlife buttbuddy's, which are:

John Cartor (148) uid=2074566

Mr Blade™ (17) uid=1534418

Jony Blaze (82) uid=2219117

BITW (22) uid=2060752

ToxicF34R (257) uid=1871347 <-- Sells bots, so beware !!

The Real Slim Shaddy (481) uid=115267

Idiots like this should be stopped.

Please beware of this member and the idiots mentioned above, who dont have a clue what this is all about anyway, dont deal with these skids at all.

Hosting from blueshark? Think twice ! There are so many other members who DO deliver the product or service which you have paid for ?

OP haven't bought the service from me, OP bought from Duuzi UID=2168262, So I am not liable to give Him anything, I am only liable to support the first party and In this case Duuzi UID=2168262 is the first Party, So OP blame me for no reason, OP Acting like a 12 year kid. " Serkan13" You have to understand the business and its rules.

There are some proofs of the conversation with him on Skype!

No proof, just text. Seems like an invalid report so far.

I myself use Blue Sharks' hosting, and I am very satisfied. All of the people mentioned above are trustworthy, and good people.

OP, you sound like you need to seek mental assistance.

Based on the quality of your hosting i couldn't imagine "you" actually doing anything that was claimed.
