Hello ladies and jets. I felt like I should make something special for my 2,000 post mark so I guess the best thing to make is a feedback. ?

I started this account late 2012, almost 2013. This is not my first account though, I had another one and that account was started in late 2011. No, I'm not a multi-accounter, It's been taken care of. I came here so that I could start "hacking" people to impress my friends, also because I was interested in the field. You know that phrase "you started from the bottom, now we're here"? Keep that in mind though these next few quotes.

Very first post:

old account Wrote:Hey,,
I got hacked on runescape.

What he did is he told me to go on something on google, he said he was live streaming something on another website. i went to it. It asked to run some java program(UNKNOWN) and like a dumbass i ran it. Then did not work. I added him on skype and he called me. He told me to get something from my bank. I did.(like a dumbass) and then my runescape client closed x2 times then he hanged up and was on my account and knew my bank pin.

HOW DID HE DO THIS?

i looked up his ip and he used a proxie.

How can i find his ip if he put it through a proxie? is it possable?

The famous bitching about characters noob mistake:

old account Wrote:Hi, can i get one please? thanks(stupid 15 characters..)
and now I'm here.. making a thread about it 3 years later or so. I've learned a bunch though this forum and it really helped me in my life, and I'm 95% sure I'm going to pursue a job in this field, and this forum helped me get there. I'm currently 17, and a Junior in high-school.

All the staff members: I've hardly was in contact with any of the staff members so I don't really have a good solid opinion on any of them. Sorry I guess.. </3

Friends that have helped me though the way:

Please note that I'm not the best at elaborating.. I say what needs to be said.

[Https](#): I've know this guy for about a year now maybe, I don't know. I think we meet when he told me that he wanted to make a forum and needed help or something. I became pretty good friends with him
and still talk to him today!

[Werto](#): Here is another good friend that I have no idea how I meet. I just want to say thank you for being there and being awesome! Edit: Actually I just remembered. *cough*, Werto started PM'ing with some quotes from superbud and then we became friends and started playing games together.

[Tamaki Suou](#): I meet this user on Hyper-Forums, and he own a contest and I upgraded him. We became friends after that, but we don't talk so much. He is a great person and we need to start talking more.

[Krew](#): I have so many people that I'm friends with and don't really know where we got started.. Here's another one. I guess this become a list of friends I have made rather than how I meet them all?

[SmartLoser](#): Last but not least is smartloser. He wanted some help with his minecraft server, and I became co-owner of it. Due to payment problems, we couldn't keep it going but it was still quite fun.

I'm ready for another good few years until this site shuts down, so give me what you got!

?

(Apr 7, 2014 01:01 PM)Panik Wrote: [\[CITE\]](#) I read it. Everybody claims they had "an old account". It's alright, I actually had an account back in 2006 before Omni even thought of this site, but it's been taken care of, I'm not a multi accounteer.
