Quote:Product Keys and Unlicensed Software

Product keys, key gens, serials and software cracks are not allowed. This includes the selling, trading, or requesting of any illegal unlicensed product keys. HF is not a warez forum and we will no longer tolerate our site being used as one.

Would this pertain to, Curse Voice Beta Keys? Its an application for League Of Legends, gives useful tools and such. I just see a lot of threads with giveaways and buying/selling of keys, wondering if its allowed.

To my knowledge that's disallowed. I'd wait for a few more replies just to confirm.

Any sort of key for any sort of product is not allowed to be given away on HF.

This is not allowed, so do not create a thread about it.

I would think this'd be not allowed.

OF: I just installed the program and logged in, never entered a key. None of my friends are able to get it so I don't use it.

OT: I don't think you can do this.

Keys are not allowed here. This would be considered black hat activity as you have listed.
