It was a pleasure working with Igniter. He took everything I said textually and made it pop out visually! Every time he changed something he made sure I reviewed it before continuing with his progress. He was very prompt and professional! Overall, he saved me a lot of time and I would definitely use him again! Thanks for everything!

P.s. His prices weren't bad either ;)

I only do basic animation Like shines, moving text etc.  
I dont have a powerful PC to render any other kinds of aniamtions :)  
But if I have a powerful one I definitely and willing to do it.
