You might want to show some proof.

I find it kind of hard to believe that you have a "job replacing income" method that anyone can do yet you mess around selling ebooks on hackforums for \$25.

Bought NetRevenue Premium package and I'm very surprised..
I've bought before this 5+ eBooks they were almost all unoriginal methods or very bad ones
This one is great, I never thought of this and it is very original and unsaturatable.
If you follow these methods \$100 is very easy to make per day, a few hundred sound ok!
I'm very happy I finally bought a working eBook, thank you Cochau!

Purchased this eBook a few days ago and I'm leaving a review:

The eBook is very well written and very well explained
It has methods I've never heard about or thought of, but they're pretty simple and effective.
If the methods in this eBook are implemented well, they can easily make you lots and lots of money
I myself have used it and in only 2 days I've made \$120!
If you're thinking to buy it or not, I suggest you do, I've read many eBooks before and this is nothing like them
Huge vouch for you Cochau and for NetRevenue!

The methods in it are obviously fail proof, they just can't fail..

It doesn't take much time at all and it's almost autopilot, this is too good to be true, but it is haha.
Great methods that will definitely get you a stable income, and the best thing is you can add your own twist to it!

So HUGE vouch for Cochau and NetRevenue. ?

I had NetRevenue since a week , but decided to implement it 5 days ago.

So there is only one word I can say about this - Legendary.

This eBook is amazing, saw many eBooks before, spent my money on a LOT of shitty eBooks.

But this one shits on them all, haha.

So after implementing it I decided to give it some time, I didn't even need to do that..

The money started rolling in pretty fast!

Ok I just purchased this eBook and I will post my review:

So at first I was a bit skeptical but after I read through all of it, it looks like an amazing idea.

It doesn't require much work at all and is very unique

I don't think I've read anything like it before, so it's original too

The methods in this could make you at least \$100 a day and doesn't require much work at all

So finally I found a working eBook, vouch for NetRevenue, really good ebook!

It's semiautopilot, however the new method which is autopilot will be released today/tomorrow but price will increase by the double when it's released.

Yesterday I bought NetRevenue, at first I was too lazy but I decided to implement it anyways.

I'm not good at all with computers. So I had to PM Cochau for support.

He even went on skype and answered my .. 30+ questions?

He helped me set it up and now after it is done look what I made:

If you calculate it: $140/12 = 11.6$ EACH HOUR DOING NOTHING!!

This is like having a full time job, but instead, you spent 1 hour on setting it up and forgetting about it.

So thank you very much Cochau for this eBook

And thank you for your amazing support.

Seems like I just wasted \$33...this is why I stopped buying ebooks a while ago. All of them are disappointments.

Finally had time to post a review!

So I have bought NetRevenue about a week ago.

I bought a few eBooks before it but none of them worked, or required too much work for low payout.

But I heard many good things about NetRevenue so decided to buy it.

So I read it and I was amazed after reading it!

Decided to implement it immediately..

And check out my 5 day earnings:

Using NetRevenue I am making at least \$120 a day.. that is better than a full time job!

I recommend you all to check it out!

Hey guys, I've posted my earnings quite some time ago..

I'm guessing it's been about 3 weeks now, I'm still making the same amount of money till today..

Around \$160 a day, and all the money is being sent to my bank now, which is amazing.

If you are still doubting to buy NetRevenue or not, I won't tell you what to do, but I'll leave you with that I am making at least \$1,000 EACH WEEK.

All going into my bank account, so all is true cash that I can buy whatever I want with.

If you're tired of buying all other shitty eBooks that just plain don't work, or require too much work..

Go for NetRevenue, you have my word that you won't be dissapointed.

I've had customers make double that on their first month, so yes, it's very common to make around \$2000 a month.

And it only depends on the initial setup which would take at most an hour or two.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
