If they are worth 5 cents right now my prices are super cheap and I'd be losing money, for example:

Twitter retweets would be \$1 (20 OMC) for a 100.

I went on the basis of 10 cents for each OMC, which makes my prices in line with most other SM shops. If they are a little pricey I can lower prices though to match the current market. ^^

Vouch for OMCSOCIAL service, i bought Facebook likes with Omnicoin!

Happeh - April 11, 2014, 3:00 pm

Thanks, glad you enjoyed!

Changed the prices to better resemble the current market of 1:20.

Sorted out my new prices - realised I was ridiculously overpriced lol.

I will also happily price match if you find anywhere cheaper.

Nice to see you accepting OMC, nice prices, GLWS. ?

Great new thread design by [Banish!](#) - I will now be pushing this service to the max. Kind of set it up before on a whim but really want to push this and OMC further. Expect more services, cheaper and better, soon. :)

I can do that but , it would have to be a minimum of 200 likes per each picture.

EDIT:

Quickly closing while I update prices to match current market value along with adding some more services such as Youtube, Vine and Soundcloud!
