Old thread: <https://hackforums.net/showthread.php?tid=3810536>

[Video: <http://youtu.be/Tx8lzUdrXy0>]

Price changes, 1 pic = \$1, this is to encourage people buying 10 pics

if you buy 10 pics, the cost will be \$8

PM me if you are serious, do not waste my time.  
WHY you should buy it from here:

I'm not expensive at all, this is not a living for me, I make it look legit.  
Good question.

I use a method that I have developed by myself. The text that I do actually looks legit. Many of the people that have vouched here have actually doubted my capacity to do so, and I have made pics for them. They told me it was amazing.

OMC is HF's official cryptocurrency:

<https://hackforums.net/forumdisplay.php?fid=310>

It can be on the girl's face. Hell, I can even do it on her feet.

just to clarify the idea behind this product- seller is offering a service in which he takes a female picture and then photoshops a tattoo of your name on the body correct? that I understand, but what are you supposed to do after that? Sorry, if this is a noob question, but im horribly confused on the application, as it cant be e-whoring right lol? but im assuming it is something B-hat related

**ToxicTank** - June 5, 2014, 3:20 am

I'd like to see more examples, especially GIF Examples.

Considering to buy, high consideration but I still lack the confidence of how high quality it is.

Read all the vouches, great; although I only saw one single example which makes it much less wanted. =/

Really want to see more examples.

**CokelsAwesome** - June 5, 2014, 5:42 pm

Also interested in this, but if there was a couple more examples would be nice.

**Obli** - June 13, 2014, 8:35 am

Nimano, you seem to have quite a few scam reports. I do not like this, I'd deal with you but on certain circumstances. I can provide the said pics but with a watermark. My clients would not like me to share private work.

IF YOU NEED PICS, POST HERE. I AM NOT HOME NOW, I CAN'T WORK ON REQUESTS RIGHT NOW. POST HERE, DO NOT PM ME, I WON'T ANSWER, POST HERE AND I WILL GET BACK TO YOU AS SOON AS I LOG IN AND WE WILL DISCUSS YOUR ORDER. PLEASE, POST. HERE.

**Nerd³** - June 20, 2014, 4:49 pm

OP, can you please provide some examples of the animated gifs you have done? Depending on how they turn out, I will most likely buy an image from you.

**Obli** - June 21, 2014, 8:04 am

I will work on animated gifs depending on the demand. If the demand for them is high I ease up on the price, if not I won't overprice you but it won't come cheap.

I think I have one good example on my PC, I will PM you the .gif when I find it.

I am up for some work. I can also induce a piece of paper in a picture if needed

I'm simply saying that whether you have a Mona Lisa painted from the top down or you have a Mona Lisa painted from the bottom up, it's the same Mona Lisa. Quality is what makes the difference, not how you got there.

Quality is what makes the difference, not how you got there.

Yet you can use a good brush to paint and you can use a shitty brush to paint, you can have a lot of experience as an artist to paint the Mona Lisa as you can have looked up a tutorial on painting and tried it out.

I don't use ANYTHING you know. If the outcome was the same, I wouldn't have had 3 sales threads with 30k+ views and all of these vouches. I don't know my customers, I'm not friends with them and I never asked from my friends to vouch for me. The quality of what I do exceeds by far the quality of tutorials you speak of since:

- 1) I have a lot of experience
- 2) I use my own technique, and when you tried to describe what I did, you were dead wrong.
- 3) I do it everyday so I'm used to it.

Now, if you're going to keep telling me that it's the quality which counts when the quality of MY work exceeds the quality of stupid tutorials, please, refrain from posting.

**M?gic** - June 29, 2014, 2:40 pm

What tutorials are you talking about lols? If your quality is good, then nice job. I'm just saying there is no "secret method" to using photoshop to make the writing look real. There is no "better method."

There are only techniques. It's silly to say "ONLY I KNOW HOW TO DO THIS ON PHOTOSHOP AND YOU CANT DO IT SO STOP POSING!!!!!!12121!!@" because there is no secret hidden feature that no one but you knows >.>

I wasn't trashing, but now that you've taken up a shitty tone with me I certainly have to set you straight. Calm down, it's only the internet and I'm only stating facts.

About the tutorials which may be found on the Graphics Tutorial section.

I am not saying that I am the only one who can do it. I am just saying that so far I'm the only one on HF who can do it publicly. I have my own technique and this is what I meant by "methods".

And there are no features which are unknown, I am only conscious of my own technique and no one knows it since I did search on HF before even starting this service AND on the internet. I already offered to the one who can uncover on my technique a prize of \$20 (PP/BTC/OMC), my clients who come to me on Skype and me stopping this service. What else can one desire?

You don't have to set me straight. I was trying to be respectful and make you understand that you have no place here to tell me what I already and obviously know. Please, stop posting here. I do not care about you, I wouldn't adapt a shitty tone with a stranger.

Good day.

**M?gic** - June 29, 2014, 3:18 pm

Welp, I'll post where I please; however, this will be my last post. For you to suggest that you are the only one that knows how to do something on public software as popular as photoshop is ridiculous. It's an art, not a method... and what you're doing is really quite easy (at least the way i do it, which truthfully looks the same).

Your only problem is that you think you're some big important person who is the best at everything. Don't let your ego get to you, the people with the largest egos end up the furthest behind. Some day another's modesty will set you straight.

I don't know what you are talking about at all. I already told you, what other people do, it's not my thing. IF, for an instant, I had found myself to be selling something public I'd have closed sales a loooong time ago.

I know that I am NOT important. I know from where I came from, I'm still not important and I don't think I will ever be. I'm just some guy on the marketplace like you and many others. Ego has nothing to do here, I am just saying that I am the only one on HF who does it the way I do because as I said I already researched it and didn't find anything. Is it truly that hard to understand? A lot of people tried copying what I did and they failed, some of these people were customers of mine, some were complete strangers, and never have I discouraged anyone to 'buy' from them. I always wished them good luck in their sales and gave them my honest opinion, I even help out some folks on Skype.

I talk to a lot of people regardless of their status on HF, I don't care about shit like that, I don't care about rep or post count, I'm just another joe on HF just doing what he does.

Another's modesty? Yeah right, I'm not being arrogant by doing what I am doing. You have your facts mixed up mate.

If you want to, we can continue in PM.

**JagFag** - June 29, 2014, 4:07 pm

To me, this looks like shit. No offense to you, but I wouldn't believe that even if I was half blind.

And of COURSE I can make better than that. You're paying for a service, so far I never had any unsatisfied customers.

Yeah. Oblivious pays the girls of his own pocket in order to be able to get a name on a body and he doesn't say anything about it because he's a good guy. Or he has them in a basement which is kind of creepy.  
...If that's how it happened I'm pretty sure this wouldn't be on HF.

**BenCardson** - September 7, 2014, 11:29 am

Saving my spot, I just purchased a picture. I'll post a review when I receive the picture.

**BenCardson** - September 9, 2014, 4:51 pm

- Can't edit post, if a mod could merge the two.

I sent him a private message and received one back in a day and he was successfully able to respond back quickly and attentively. I very much enjoy the picture and showed it to a couple of friends to test it out and they all believed it was a Snapchat photo of a girl who actually wrote it on her body. This is some very HQ stuff and only for 0.50 I might just order more.

Thanks so much for being a high quality as you said you were. +Vouch from me.

**NeoXiD** - September 17, 2014, 12:49 pm

still doing this as I need some pocket money hmu

**theilluminati** - June 25, 2015, 4:06 pm

Yo,

nothin against your product, or no attempt to take away from your sales, but I personally can't "not" mention something here:

I see you got the word "nigga" in your ad.

Let me ask you this: You black?

See, I don't know how it is where you from, but that word is a product of black americans who now use it as a term of endearment typically "towards one another", and sometimes as a general term.

Originally based on the racist word "ni\*\*er", black americans have worked to desensitize themselves to the racist use of it, but are still not comfortable with non-blacks going around assuming it's ok to go "nigga this" and "my nigga that" just to be cool.

Don't get me wrong. If you black, what up. If you not, I'm not saying you aint cool. I'm saying "that aint cool" and you would be mad cool if you removed it. You can say and do whatever you want according to the rules of where you at and the consequences you're willing to deal with but, face to face, this shit would matter.

good luck on them sazinales (sales for those who don't speak the language) lol

Hello, sir.

I understand your concern. I am a black man, so I thought it would be okay. What up. Those white fools think they can mess around with the term, brother, but that just ain't the case. With that being said, yeah, I'm fucking black and I call my friends niggas.

Why dont you have some example pics? Just so we know how it might look like?

**Obli** - December 29, 2015, 9:36 am

^

People contact me asking for examples before I even start. I share those examples in private with interested buyers.

I faced some repercussions for putting up some of the pics before, it's not fit for general posting and showcasing. If anyone has any interest, they can just contact me via PM and expect a quick answer.
