I've been using this service lately and it has been great

My review back then:

Quote:Concept idea [8.5/10]:

My logo features some nice symbols which fit perfectly to what I was asking for. I'm glad that I don't have text only, but also some "interesting" elements in it.

Overall I believe the idea he used to make this was very good.

Design [9/10]:

The design is by far superior than many other work pieces I've seen on HF. It is strong with effects which make it to a real eyecatcher when I planted it on the area I needed it for. I love the scheme of colors as well as how everyone comes together, very nice :)

Service [9/10]:

He was very fast with this and helpful in order to keep everything going. It was clear to talk about the logo first and then make it following my wishes. He took into consideration what I wanted and also fixed something in the end, great :)

Price [9/10]:

I paid 10\$ for everything - normally it would take me a lot more, espacially outside of HF - but what I would gain might even be worse with a higher price. I would consider this service to be ultra cheap.

**Visualize** - April 12, 2014, 11:17 am

I have seen some of your designs before and they are really nice! I am thinking of buying a thread design from you soon!

MY sig and avatar are both done by this man.

He also made me a custom desktop BG, and I plan on sticking with him for more GFX requests in the future.

Simaas responds as quick as possible, sometime we have delays since he's +9:00 hours ahead, but he makes it work.

Prices are very reasonable too.

Great guy, very friendly, and is an amazing graphic artist.

Writing this not because he asked to me vouch or anything, but because I think he does a great job. Anyone who need graphics done, I wouldn't hesitate to come to him.

Once again, thanks Simaas, and good luck with sales in the future.

**VPN** - April 17, 2014, 3:10 pm

I can vouch for SIMAAS, really fast & awesome service he got there and I believe that high quality is not the work you do.. it's also how fast & good you serve your customers!

**Abstractionz** - April 18, 2014, 2:18 am

Although I have yet to truly order a logo or a sig for financial reasons, I have spoken to SIMAAS over Skype and he is a very friendly, open to ideas guy.

If you want something done, no matter how extravagant and/or hard-to-make it is, he'll do his best to make it happen for you. He also has one of the nicest looking graphics shops I've seen and his prices are very reasonable :)

Was kinda slow at first, but it was simply because of a misunderstanding.

After the misunderstanding Simaas took the work, and delivered a high quality end product in a very timely manner.

Would order from this guy again, if I need something.

HUGE HUGE vouch for Simaas. Completed my order within 40 minutes and it looked exelent. He was very polite and always offered to edit stuff in the design if I wasn't happy with something.

My vouch lies with him.

I don't suggest dealing with Ape, he likes the work, but refuses to pay at the end. Says I should send him the design first, then he pays. An obvious scam. :)

Ofcourse I showed him the copyrighted version, and he loved it :).

Amazing designer. Anyone questioning this users ability should check out my signature and thread design - fantastic work!

SIMAAS is excellent to work with. I will be honest, I wasn't a fan of what he came up with first - but it's my fault for not telling him exactly what I wanted. He did the proper adjustments I requested, and did a DAMN good job at it. Thanks a lot!

Today I PM'd SIMAAS for some graphics work - updating my thread design, and creating a new signature. He delivered - extremely quickly. I sent him what I wanted at 4:49PM, and he replied with an amazing signature by 5:30PM, including the PSD's! I requested two simple modifications, and both were completed in under 10 minutes!

The thread design is here: <https://hackforums.net/showthread.php?tid=5072631>

And for the signature he made...Simply look below this post!

I messed up and accidentally sent SIMAAS the payment three times. He was extremely kind and sent back two of the payments within 5 minutes.

SIMAAS absolutely delivers high quality graphics and thread designs at great prices. He is honest, fast, and trustworthy.

SIMAAS has a customer for a very long time. I will becoming back for more graphics.

I know he'll deliver, however when he says something will be ready "Tomorrow", then it should be

ready when he said. The problem I had is, as a seller, make sure you know when you can complete certain tasks before giving a guaranteed date.

Again, no harm done. I know he means well, and is just heavily busy

My full on review:

SIMAAS has a great graphic designing service going on. He was very patient with me while I kept requesting changes over-and-over again. The time span of this project became 2-days because I kept requesting changes to be made, but if I were to not request any changes, he would have gotten it done within a day easily. The one thing I most appreciate about him is his patience, because I have deal with other graphic designers before, and we had to cancel the project because they were not able to keep up with the amount of changes I kept requesting; keep in mind that I was not making request changes every 10 minutes, but as anyone would know that has dealt with graphic designing services, you are most likely not going to get a design you are 100% confident with no matter how professional the designer is, which is why you request changes. Patience is key with graphic designing.

He is very creative and professional; he knows what he is doing in terms of graphic designing. His pricing makes up for the quality of product you will receive from him.

I would definitely be able to recommend him to anyone that is looking for a graphic designer for their next project.

He will be my new main graphic designer for my future graphic needs.

Another great experience with Simaas :D

I worked with him several years ago and he hasn't changed a bit -- still very friendly, easy to work with, and of course top-notch designs.

Have recommended to my friends and will continue to do so =D

**frsnix** - March 27, 2017, 4:12 pm

I recognize design when I see it, and Simaas is different when you compare him to the rest of the designers. He didn't watch YouTube videos; he didn't ask for help, he was consistent and spent a significant amount of time into where he is now. He's as serious as they get. He's the designer; no other person can get the job done besides him. I just don't know any person that could ever come to his standards. He has dominated the market with his skills, and I have no doubts in calling him for more of his work in the future. Good luck with the rest of your orders, Simaas. You've done me an incredible effort, and I hope to see you continue showing what you have to offer the Internet.

**anarkhiya** - March 27, 2017, 4:24 pm

So an update on my order:

Simaas was so proud of his work and what he had created, and I still hadn't seen it at this point, so my anticipation was through the roof. When he sent me the images, I was blown away entirely. I expected quality work, but this was beyond that. The amount of detail and little tidbits in the logo

were beyond phenomenal, I even told him the reaction was similar to if I had been handed my first-born child. Beyond professional, polite, and punctual.

The price I paid is incomparable to the amazing work he put in, so please, if you're on the fence, give it a go. You will not be disappointed. I am a horrible person to describe something, so when I was trying to spit out what I wanted in a logo, he took a jumble of words, shaped them into amazing ideas, and turned that into top-notch art.

Once again, thank you SO much, Simaas. I look forward to boasting about this and working with you again in the future!

**Sannes** - June 17, 2017, 4:35 pm

Hi, im Sannes. I like cats.

So yea i was looking for some graphics for my projects i got around and added some of the graphic guys around here. His style just convinced me. I've ordered 2 thread designs, 1 banner, 1 signature and 1 logo.

As a coder i know how much effort it is to work something out and this guy just does AMAZING work in NO time. I had all my stuff in a few hours - im not sure how he does it, but he did it.

I've spend a bit more than i usually pay for graphics. But really, you can't compare his work to the cheaper ones. They got a amazing quality, he was lightning fast and hes more than friendly. He don't got set prices which is fine - you can even deal with him.

Once again, thats professional work. It's like i've just ordered from a big graphic company. I will definitely buy more soon!

(Jun 17, 2017 04:35 PM)Sannes Wrote: [\[CITE\]](#) Hi, im Sannes. I like cats.

So yea i was looking for some graphics for my projects i got around and added some of the graphic guys around here. His style just convinced me. I've ordered 2 thread designs, 1 banner, 1 signature and 1 logo.

As a coder i know how much effort it is to work something out and this guy just does AMAZING work in NO time. I had all my stuff in a few hours - im not sure how he does it, but he did it.

I've spend a bit more than i usually pay for graphics. But really, you can't compare his work to the cheaper ones. They got a amazing quality, he was lightning fast and hes more than friendly. He don't got set prices which is fine - you can even deal with him.

Once again, thats professional work. It's like i've just ordered from a big graphic company. I will definitely buy more soon!

Thanks for ordering guys! Can't wait to work again!

I certainly do vouch for this guy! His skills are amazing, the respond time is incredible fast! The quality is stunning.

I got absolutely flawless graphic designs, and precisely what I was looking for and even more! His attention to detail is spectacular!

Hope to do business with this guy again in the future!

Enormous vouch from me!

Got a thread design done along with a sig, did a great job and did few edits for free.

Vouch for him, was quick.

**Professional27** - September 14, 2017, 6:39 pm

I purchased a sig and thread design from OP. I am satisfied with the quality of both the sig design and the thread design. The turnaround time was alright as well even though it couldn't be completed in the time given for the OPs own personal reason. Overall I would most likely do business with SIMAAS again in the future. Good luck with future ventures and keep the quality up. ?

Let me tell you about my experience with Startkind Agency.

In the last few days, I've been looking around for a designer to create a logo for a new shop I'm working on. I've contacted a few designers, but to no avail, I got no response. I had forgotten about Simaas! But suddenly, luck may it be, I receive this message. I kid you not:

"Hello, long time no see!

I'm happy to announce that the team got bigger and the quality is better than ever now!

You have me added because we have worked in the past and I never notified you that I changed my Skype!

The new skype is: live:startkindagency

Now we offer: Web development  
Company Branding (logotypes) Thread layouts (infographics)  
Advertisement banners

And everything else related to graphics/web development!

[www.startkind.com](http://www.startkind.com) (new website soon!)"

I had totally forgotten about simaas! I described him what I needed, and we discussed a bit. He proposed things on his own that would help my website, and we agreed on a contract. 8 hours later, and I'm not kidding, just 18 hours later, he contacts me back with all the work done! He even went through my website and did a research to extract some pictures in order to use them in the banner!

What an amazing team.

Thank you.

I ordered a logo design from this seller earlier this evening. Not only did he finish it within approximately 2 hours, he did a truly fantastic job with it.

I couldn't be happier with the outcome. Highly recommend this service and will definitely be back again.

How much would you charge to fix up a html site of mine? Basic fixes. Like:

- pick background image for index page,
- pick the smaller images for parts of the index page,
- maybe design a logo for me.

Please PM me with an approx price so I can understand if we can go ahead and talk. I just want to make sure that I am not wasting your time.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
