Thread: [Source Finder! NEVER ASK FOR SOURCES AGAIN!](#)

Giommi - April 12, 2014, 12:22 pm

here 10seconds work and 10post less/day

stop ask/release stupid/useless questions/threads

this amazing tool uses the PRIVATE 1337 GOOGLE SEARCH API

so don't leech this is very hard to code! (with this sexy tool u can get the source of my application [just search "google api" and mark the checkbox])

I know couple of programmers who started programming by copying-and-pasting source codes from others but then, they became passionate about the language they were coding in and decided to go the legit way by figuring out their own ways of writing codes.

Some will benefit and learn over the years, some will remain stupid as shit no matter what you do.

c&p isnt bad in all cases its depend on why and what u do with it

Agreed, but it becomes bad after the 100'th copy and slap theire name on it, again and again...and again. Its like having a convo with ur grand parants that suffer from dementia. And i dont like either as well.

IF you leave credits and IF you know how the code works.

If u copy a function like get screen img or something like this
then u can't give credits

so C&P functions is OK

but if u start to Copy Projects and just change the name
like Form1.Text = ByGiommi xD then u are a leecher.

i found the same one Simple Crypter Source
over 8 times (than i stopped looking for it)
but with different Creators :D

so C&P projects is SAD

Love and Peace - April 13, 2014, 2:30 am

Whats the source for that program op? ?

huh?

Download my amazing tool BUT DON'T LEECH
THIS IS MY GOOGLE API GIVE CREDITS!

??????? - April 13, 2014, 2:55 am

Nice program you've created here. Useful for here and there searches. +3 for you sir.

Thanks sir!

I will give u the Google Search API for free!

<http://www.mediafire.com/download/azz3zclup0jajxh/GoogleSearchAPI.dll>

U got the license to use this!

System[X] - April 13, 2014, 5:11 am

C&P is BAD no matter what you do with it or if you leave credits.

The only right way is to look at the code, understand it and create your own. If you C&P codes and
give credits how are you going to learn from it(learn how to paste shit ?). So yeah, C&P is the easy
way but you don't learn from it.

Thanks

Yea exactly, but I still think you should leave credits for the functions, if it's a bigger project.

NOT REALLY XD HAHHAHAHAHA

god how can someone leech my crapcode xD

It's Exactly the same xD oh god

HE ADDED A CREDIT BUTTON AND A LABEL

If u see at the message box the Project name is same as mine so he just edit my Project!

The worst leech i've ever seen.

and he got lot of reps (more than others HQ users)

Zuko? - April 14, 2014, 3:13 am

Aw, that sucks..

Well, I'll go ahead and download yours =] rep++.

Thanks for sharing :)

VN888 - April 14, 2014, 4:27 am

double post sorry - my browser... lol :D

DrKill69 - April 14, 2014, 6:54 am

NICE ! :D thank you very much sir ! :)

Giommi - April 14, 2014, 8:06 am

@DrKill69

Haha noprobem but this is not a serious tool :D

it just googles "vb.net" & your Question & (and if u check Source then it adds) "source"

But it works :D so USE GOOGLE COMMUNITY

@VN888

Thank you that u took your time to scan it

but it's a source

if u read it before execute then u can see there is no DL&EX function in there :D

MAN FAK I SEARCHED FOR THIS SOURCECUD IN YOU'RE PROGEM IT DIDNT FIND?!
CEPSLOOOOCK

jk aside : nice release will probably not be using it since I'm not really programming anymore, but ty for helping the community, I'll probably leech it cuz im l33t

IAmNotHere - May 26, 2014, 9:15 am

Thanks Giommi.

I downloaded your source and edited to my needs.

[\[img\]http://s29.postimg.org/lqp6uznef/source.png\[/img\]](http://s29.postimg.org/lqp6uznef/source.png)

Don't mind the filter, since the checkbox hasn't been checked.

imaking - May 27, 2014, 11:55 pm

I'd rather use Google instead. Don't misunderstand me. What I mean is that google is more descriptive than this. Nice idea though

@IAmNotHere

Lol didn't think that this gonna help someone :D

IAmNotHere - *June 17, 2014, 1:06 pm*

Slow internet, loading of chrome, if already loading, is a pain in the I now just enter the number of hits I want and when I click one of the hitlinks I directly go to the corresponding webpage.

Thanks, have a good day. Great upload.
