Thread: [Selling 6 Year Old Web Design / Portfolio Website](#)

propsta - April 13, 2014, 2:25 pm

I am looking to clear up some websites on my server. So this one is <http://ecstaticstudios.com/>

It comes with everything you see there including the fla source. Perfect website for a Webdesigner, Artist or Photographer!

The website is 6 years old, making it very easy to rank. It comes with everything you see there.

Let me know if you have any questions..

Not much traffic as I have never finished the site.

Amazing aged domain... Good luck

BIN \$25

I will bid 10\$ for now. Really liked the name.

Thanks

I'll bid \$12 on this domain

Thank you

Jack

Just a note to people, sites like these are horrible for SEO and a limited number of people can actually view them.

If you can get it to rank "easily" like OP states, I will cut off my testicles.

True, the domain doesn't include any popular keywords other then studios, which is saturated as fuck.

Haha I didn't think this was serious after seeing the site, I thought you'd be selling it as a relic or something, not selling it to actual web designers

Still selling any more interest?

Let me know..
