Vouch for this user, this is a great product for those in need of a lot of email accounts!

interstellar pulses - April 16, 2014, 9:34 am

Is this made with uBot? If yes then it's defo not worth \$50. GLWS

Mike Bars - April 16, 2014, 9:36 am

u can find free mass email makers, so why blow \$50 on this?

thedude115 - April 17, 2014, 5:16 pm

@H U F,

this is not made in uBot, it's coded in C#.

@Satanism Worship

before this project we did alot of research and found no good email creators. The ones we did find are in the 70-180 price range.

Time? - April 17, 2014, 5:18 pm

This is overpriced OP. I have a very good mass email creator that looks similar to this. It is public.

thedude115 - April 18, 2014, 10:52 am

@Fa7e This is not a public email creator.. If that's what you're intending.

This is also not overpriced, we've done some research and found other products that are similar and cost more than this.
