Vouch for my bro and product looks nice man good work.

iMeetYourMum - April 17, 2014, 9:48 am

How to say ... it's NjRat ...

In addition the link does not work

Improve it by pity _;

Ub3rHax0r12 - April 17, 2014, 9:50 am

its like njrat, with a ton of extra features. and ALOT more stable

and i fixed download sorry bout that

bzr? - April 17, 2014, 9:50 am

What language is this coded in? native RAT or .NET?

Ub3rHax0r12 - April 17, 2014, 9:51 am

(Apr 17, 2014 09:50 AM)Eventus Wrote: [\[CITE\]](#) What language is this coded in? native RAT or .NET?

.net im working on a native java rat but its gonna be 10\$/month

Benjamin Franklin - April 17, 2014, 10:07 am

Native = No dependencies.

If it's Java, it depends on Java being installed on the machine you're infecting.

Anyway, I'll try this out in a bit. Thanks for the share

Ub3rHax0r12 - April 17, 2014, 11:27 am

alright im fixing the builder right now, add me on skype or use the built in chat and i can give the new download

(Apr 17, 2014 09:50 AM)Eventus Wrote: [\[CITE\]](#) What language is this coded in? native RAT or .NET?

updated builder and added crypter! also fixed chat server

(Apr 17, 2014 03:35 PM)m3shc0llid3r Wrote: [\[CITE\]](#) Nice RAT, ub3rhax0r is HQ as always!
thanks bro! good luck with ratting!

Nandhugp - April 17, 2014, 8:03 pm

Wow it looks great.Thanks for HQ product man

SIM-2163220 - April 18, 2014, 12:46 am

thought it stood LQ.. because this is really LQ

? Ace of Spades ? - April 18, 2014, 1:55 am

hey good job... which types of passwords it can steal, does it support mfoutlook ?

iMeetYourMum - April 18, 2014, 3:08 am

PLEASE! Don't inverse CLIENT & SERVER!

Client = The malware, which receive & execute commands.

Server = The GUI, where you controls & send commands.

Please, change that now, please ;_;

And i'm sorry, you haven't added some controls....

PS: In the CLIENT (The stub, don't inverse), what method do you use for controls ?

> Enumeration ?

> Case "[Name of features]" ?

PPS: Java have dependencies.

Cr4xy - April 18, 2014, 8:57 am

i like potatoes

thanks man for sharing this with us! :)

uberhackerxx78 - April 18, 2014, 4:10 pm

i use this rat, its VERY stable and i love it because i get every single password i need!

Ub3rHax0r12 - April 18, 2014, 4:31 pm

(Apr 18, 2014 01:55 AM)Trouble-?aker Wrote: [\[CITE\]](#) hey good job... which types of passwords it can steal, does it support mfoutlook ?yup, ftp chome, forefox, ie, most mail and application based stuff

david007 - April 18, 2014, 5:14 pm

why does the server bring up cmd when i test it after using your crypter?

Ub3rHax0r12 - April 18, 2014, 5:14 pm

(Apr 18, 2014 05:14 PM)david007 Wrote: [\[CITE\]](#) why does the server bring up cmd when i test it after using your crypter?

i think the crypter is broken at the moment, PM me or add me on skype and ill fix it and u will get first download

-MaskedMyS?yes, its only in beta right now... and im working on a website for that and a forums. Add me on skype and maby u can help out

Zero™ - April 21, 2014, 7:32 am

Vouch for this guy seems to know what he is doing good luck with this bro.

zuwelitting20 - April 24, 2014, 10:37 am

Thanks man.....it works, keylogger bug?

MixsStar - April 24, 2014, 3:10 pm

It is giving me a bug when building the server

nevermind, i deleted stub.exe Though it was some type of server of you =S

fabioke123 - April 24, 2014, 7:11 pm

Nice one.

I'm using it and actually stole someone's facebook pass.

I think i ruined his life in 5 minutes. :)

Anyways, nice one!

Especially when you make it undetectable from any anti-virus.

And if you put it in a image. :D

MixsStar - April 24, 2014, 7:23 pm

(Apr 24, 2014 07:11 PM)fabioke123 Wrote: [\[CITE\]](#) Nice one.

How did you make it undetectable? I cant find a FUD free crypter...

Accoy - April 24, 2014, 7:26 pm

Great rat. Is it .net dependent?? ?

leener - April 25, 2014, 2:51 am

Doesnt work for me, also the crypter doesnt give output file?

Ub3rHax0r12 - April 28, 2014, 4:48 pm

(Apr 25, 2014 02:51 AM)leener Wrote: [\[CITE\]](#) Doesnt work for me, also the crypter doesnt give output file?

like i said, The crypter doesnt work at the moment

(Apr 24, 2014 07:23 PM)MixsStar Wrote: [\[CITE\]](#) How did you make it undetectable? I cant find a FUD free crypter...

you most likely will not find a FUD crypter that is free

BoomShot - April 28, 2014, 4:57 pm

You shouldn't be asking for reputation on your program.

Ub3rHax0r12 - April 28, 2014, 4:59 pm

What the hell are you talking about? this isnt nj-rat, or any bullshit source, I wouldnt do THAT LQ

iMeetYourMum - April 29, 2014, 12:10 pm

(Apr 29, 2014 04:22 AM)Ub3rHax0r12 Wrote: [\[CITE\]](#) What the hell are you talking about? this isnt nj-rat, or any bullshit source, I wouldnt do THAT LQ Okay, so...

How do you use your socket ? Do you use Protobuf ?

Do you use enumeration, serialization or/and encryption ?

(Just some technicals questions).

Ub3rHax0r12 - April 29, 2014, 12:30 pm

(Apr 29, 2014 12:10 PM)iMeetYourMum Wrote: [\[CITE\]](#) Okay, so...

It uses TCP for some of it. Then the misc section is tcp, that's why the stub is so big. No I do not use potobuf, no encryption due to the built in crypter

iMeetYourMum - April 29, 2014, 12:41 pm

I doubt it uses TCP, it's NET.

PS: FAQ = Foire aux questions. Are you frensh?

RageDay - April 29, 2014, 1:24 pm

(Apr 17, 2014 09:50 AM)Ub3rHax0r12 Wrote: [\[CITE\]](#) its like njrat, with a ton of extra features. and ALOT more stable

and i fixed download sorry bout that its njrat with same features urs even weaker in grabbing pws but i like the file manager no one was able to make it as the original good job man hope you added more features and make it more stable

biomassacre - April 29, 2014, 6:08 pm

I will vouche for this it is good quality for a Beta

only problem is when i clicked webcam feature idk of its just me but i lost connection

asrag71 - April 29, 2014, 9:00 pm

thankyou very much. have been seacrhing for a good RAT and its been a while

?ULL - April 30, 2014, 12:13 am

Are you kidding me? It comes with a FREE Crypter, it isnt fud but for free you cant complain!... And it works- I crypted a darkcomet stub and the stub still works and mbam doesnt pick it up- Im scanning the file before and after with nodistribute, results are in:

Before: 29/34

After: 19/34

Ill vouch for this. Nice work man! The crypter alone is worth the vouch +2 for rat and crypter.

Xenarchus - April 30, 2014, 12:52 am

delete this message made mess up
/formessage

haloweed - April 30, 2014, 2:00 am

Nice Rat, beautifull and crypter fud just enjoy :3

iMeetYourMum - April 30, 2014, 3:25 am

The crypter come from a shitty tutorial... 19/34 for Darkcomet!
Don't watch some tutorials for make a crypter, learn yourself.
Good luck for make a FUD crypter xP.

Jaos - April 30, 2014, 6:42 pm

Guys this guy didn't make this rat its basically exactly same as njRAT, which is free and has the same exact features.

lowkasen - April 30, 2014, 7:27 pm

(Apr 30, 2014 06:42 PM)Jaos Wrote: [\[CITE\]](#) Guys this guy didn't make this rat its basically exactly same as njRAT, which is free and has the same exact features.

i think so too....
everything is the same

No Honor - April 30, 2014, 8:12 pm

Does the crypter work with imminent monitor?

Aurora - May 1, 2014, 5:49 am

This is a very nice rat. Works the server isn't FUD anymore, but hell, still great.

DoggyKong - May 1, 2014, 7:52 am

You cant ask for rep but however good luck on your rat

LMA0 - May 1, 2014, 1:32 pm

Crypter isn't FUD. When I scanned my rat after crypting, ESET detected it. But its a free program and when tested it was ½UD, so I can't complain.

-zERaIT - May 1, 2014, 1:35 pm

(May 1, 2014 01:32 PM)LMA0 Wrote: [\[CITE\]](#) Crypter isn't FUD. When I scanned my rat after crypting, ESET detected it. But its a free program and when tested it was ½UD, so I can't complain.

On which website did you scanned your stub?
