Thread: [\[\\$2\] .edu Emails | OMC/BTC/PP Accepted](#)

ThisIsMyAccount - April 17, 2014, 10:25 am

No need for a fancy thread, just going to get to the point here. Selling access to your own .edu emails. They are yours to keep and use as you wish for whatever you like.

These work for student discounts and promotions such as Amazon Prime student. Also useful if you are ewhoring. If they see you have a .edu email, it would be much more believable that you are a student looking for some help.

Pricing:

OMC - \$2. Rate is dependent on when you buy, which is negotiable.

BTC - \$2 at current Preev.com rates

PayPal - \$2.50

Please PM me if you would like to buy one. I will accept BTC from anybody and probably PayPal for most, since it's only \$2.50

I'm not going to go first. This is \$2. Send me the money, I'll create an account and give you the login information, simple. If you for some reason, lose access to your account for any reason that is not your own fault, I will gladly give you a new one.

I am accepting OMC for these emails as well!

I see yesterday exactly the same kind of thread.

And comments revealed that this method is public.

so.. anybody can get .edu email for free...

Now, That thread is removed and this thread come??

I have no idea what you are talking about. These are not public as far as I know. I checked and did not see anybody telling how to get these. And the public ones are blacklisted on sites such as Amazon, so they won't work for student accounts.

Also this thread was posted yesterday, not today.

What are domain are these from. Might be interested

Erwin Schrödinger - April 18, 2014, 11:48 am

Hi!

Can you get any EDU mail or only the ones that are public?

Thanks!

I would prefer not to publicly say. If you are interested, feel free to PM me.

Not sure what you are asking. Do you mean can I get a .edu for ANY domain? No. But these are not public as far as I can tell.

?ireless - April 18, 2014, 11:50 am

Hey, could you send me a PM on what domain these are? Thanks in advance!

Visualize - April 18, 2014, 11:53 am

Can you PM it I am on my phone and it won't send a PM. :(

(Apr 19, 2014 01:24 PM)Uniiq Wrote: [\[CITE\]](#) This week there have been at least 3 threads selling the @californiacolleges.edu emails. Previous to that- this method's been discussed on these forums before.

Not only are you trying to sell a public method, but the fact that it legitimately takes 10 seconds to register one of these emails is ridiculous. You are just ripping members off with a method that you most likely found out off of someone on this forums for free. It's a shame people try to make money off these things. And it's even more of a shame that people are stupid enough to buy into these things.

And to top it off, those 2 members thread was deleted for selling these emails - so you follow up by making another thread? I can't believe the audacity you have, it amazes me.

Tell me where you see me stating that I am selling @californiacolleges.edu's? Because they are not. Please get off my thread if all you're going to do is trash sales without anything to back it up.

Oh, and you're neutral means nothing to me. So yeah. These aren't @californiacolleges.edu's.

Ortek - April 19, 2014, 2:24 pm

Im interested in one or two, sending you a PM now.

Because the free ones you can find, as far as I know, are blacklisted on useful services such as Amazon student.
