Thread: [\[MAKE MONEY\] Full resell/ownership rights to my ebook\[YOUR OWN EBOOK!\]](#)

David Tennant - April 18, 2014, 1:57 pm

Full ownership of my ebook, "How to get unlimited free RP".

This ebook has 6 unique and creative methods on how to obtain free Riot Points easily from the popular online game League of Legends.

I have personally made \$200 from selling this ebook, in about a month of off-and-on selling, but I stopped selling it and visiting HF in general a while ago. I no longer have time to deal with sales, or update the book(not that it needs updating) anymore.

You can find all the information on the ebook's sales thread here:

and the other thread here:

You have FULL rights, and you can change the book/put your name on it/take mine off. I no longer can sell the ebook, and I have nothing to do with it once it's yours.

If you have any offers, shoot me a message. I personally spent a long time researching methods to put into this ebook and it works like a charm, I just don't have the time to sell it/advertise it anymore due to school.

Regards! ?
