Thread: [\[ALERT\] Found a multi-accounter \[/ALERT\] UID 2215856](#)

While in the attempt to assist a member, I have stumbled upon another account of his.

The members' name is Dedicated007 (UID: 2215856) ([LINK](#)).

He had asked me to analyze a miner of his that he suspected was infected by a rat, so I proceeded to do so until I looked at his profile and saw he was a new member. So, as I do with members that don't have much rep to back them up, I began to think this may have been a sad attempt to infect me, so I began to look further into who this is. Long story short, he has had another account on HF that accumulated -10 rep and the way I know is that he used the same Skype.

PROOF:

Me talking to him on Skype-

He also has a account on [Censored] with a -10 rep.

As far as the possible RAT, the file proved to be "clean" from any code other than his own.

Sorry if this is in the wrong section. Please relocate if so.

~Thanks

Just report it to a staff member about the problem he'll get banned.

I don't think it was necessary to make a community alert. I mean, how does it affect us? Just report him

I'm sorry but I'm just posting this because it's a attempt to work around the rep system which is against the rules. I'm sorry if this doesn't mean anything to you guys.
