This book surprisingly has A LOT of detail. It is multiple methods and although I obviously have not tried them out yet, I am sure at least one of these methods. The colours are a bit in your face but the text is still readable. This ebook would be good for anybody who pays for buses on a regular bases!

Why do you have to lie to people? Here is my honest opinion on the vouch copy that I have received.

It's horrible. There is a terrible watermark across the screen right on top of the text. You can still read it, but I almost gauged my eyes out while doing so. This user is young and doesn't know how to spell. Some examples would be "buss" "faking" "sweat". His grammar is horrible on top of that.

This user puts four "methods" of getting on the bus without paying or paying much for it. Most of these are public methods or just plain stupid. I'm not going to leak his eBook in a review but lets just say that you would want to punch the OP in the face for wasting your time, non of these methods will ever work unless you have a really dumb bus driver.

Overall, 2/10 for this eBook. I would give it a 0/10 but the OP actually looked like he tired to make this book, but it's not worth a dime.

I give it 7/10 just because of grammar but it's readable and overall I love it.

I'll give this a try next time! (Apr 20, 2014 08:43 AM).Pastebin Wrote: [\[CITE\]](#) Not sure how much OP paid the 'Malware Bytes' guy... but this is utter trash. Sorry, but this is definitely not worth anything, wouldn't even waste the internet usage downloading it.

Did you even state whether it could work?

That's the worse review I've ever read because it's not the quality of the ebook that matters(grammar, etc.) but the information.

Not sure how much OP paid the 'Malware Bytes' guy... but this is utter trash. I hate to be a dick, but even selling this in the first place should be a scam. All of this is common sense. You're literally telling people to jump on the bus sneakily when the doors open, or tell the driver you lost your bus card / ticket. Honestly it's sad to see what some people will do for money. The grammar and spelling is atrocious. I mean, who spells 'buss' instead of 'bus' or 'sweat' instead of 'sweet'.
