Thread: [The Titanic might not have sank...](#)

**Alexander Hamilton** - April 23, 2014, 3:19 pm

I just wanted to share to you guys this video, this video is a month old so I don't think this should be in news.

So, it explains how the Titanic did not sink, but it's twin sister Olympic. This is from a very popular verified youtube channel called "All-time conspiracies" which is a second channel to "All-time 10's" which it shows a list of 10 things of something (it is really interesting, I don't know exactly how to explain it. This is a verified youtube channel which is really famous and always have sources in their videos so you know that he isn't just inventing stuff up.

Who is this person as powerful as J.P Morgan, proof.. How were the papers doctored? "could have easily been doctored"

**Athlete** - April 23, 2014, 3:28 pm

I actually believe this. Back then is just like now, money has, does, and always will control everything.

**Millionaire** - April 23, 2014, 3:33 pm

I myself believe that this was a great insurance scam.

**Shoppa** - April 23, 2014, 3:34 pm

I mean I think the "truth" about history (the facts that prove a fact is bullshit) is awesome. I mean it's bullshit, but it's not. :p

That's hard to not believe.

**Volim te** - April 23, 2014, 3:49 pm

Are you retarded ? Robert Ballard found the wreck back in the 80s...

And also it's Olympic! [http://en.wikipedia.org/wiki/RMS\\_Olympic](http://en.wikipedia.org/wiki/RMS_Olympic)

Well this video says that it wasn't the titanic and provides sources that I have not looked at yet.

And for the side you are on- I have read a book about it in middle school, watched the movie and heard people talk about it.

I would have to compare all sources on both sides.

Which if you can provide me with them I will gladly do it.

For 3 installments of \$9.99

All I am saying is, DONT dismiss something because it goes against the norm.

You have probably not even looked at that side of the spectrum.

Do some objective research and come back.

**Volim te** - April 23, 2014, 3:58 pm

Morons need to stop with this conspiracy fucking crap it's retarded and hurts me brain clearly it did sank and it's Olympic (not Olympus!)

**InceptionZero** - April 23, 2014, 4:42 pm

It could have been true I mean back then it was easy to cover things up and get away with it because the technology wasn't there. I heard they are building another Titanic ship and will be unveiled by the end of 2016 or 2017. They are naming it Titanic 2 and they're already saying it will be Unsinkable....Oh how history likes to repeat itself hopefully this time it will have enough evacuation rafts.

**Awake** - April 23, 2014, 7:23 pm

I think that's a pretty legitimate theory.

But there should be serial numbers and such that could be matched to officially confirm this. Unless that was all switched and forged, or maybe they didn't have anything like that back then. I have no idea.

**Blvck Scvle** - April 23, 2014, 7:27 pm

People seriously make conspiracies about everything, like the ship sank how are you going to argue this shit...

**Byakuya Kuchiki** - April 23, 2014, 7:31 pm

But you can see the Titanic if you don't believe it for a quarter of a million pounds. Also it says Titanic on the ship which actually sank. Most of White Star Line ship did sink including the Olympics

**Coobro** - April 23, 2014, 7:42 pm

I don't think that they will ever discover what happened but if this theory is correct, where is the Titanic now?

**Justin Timberlake** - April 23, 2014, 7:53 pm

It got smacked up by Ice Cube and sank. What confusion could there be?

**Splotch** - April 23, 2014, 7:56 pm

It could be true or just another conspiracy theory rumor. You can never really trust anything.

**ImSoRah** - April 23, 2014, 7:56 pm

Conspiracy theories are so interesting.. although pretty frustrating to think of how much impact money has on our society. Definitely thought provoking, maybe this video is right..

**ViciousCookie** - April 23, 2014, 8:43 pm

Wow that is extremely interesting. I am super intrigued.

**Obli** - April 23, 2014, 8:44 pm

Does it matter? The Titanic sunk a long time ago.

**Wizard?y** - April 23, 2014, 8:53 pm

It's really interesting and a good theory I have never heard it before, but I'm not sure I think it did sink but this is also very possible.

Good share man :)

**cyberducky** - April 23, 2014, 8:54 pm

I'm sure it is the titanic sitting at the bottom of the ocean.

**GOR?** - April 23, 2014, 8:59 pm

Haha this video sure did give me a great laugh. Anywho still an interesting video to watch

**Sparta.** - April 23, 2014, 9:00 pm

It "explains"? It's a conspiracy theory, not the truth. You might need to change the line in the OP from "it explains how" to "it explains the conspiracy theory".

I'm not retarded. For some reason you have been coming on the thread every 5 minutes and posting shit. IF YOU DON'T LIKE IT THEN JUST FUCK OFF. YOU DO NOT HAVE TO COME TO THIS THREAD.

I already changed the olympus to olympic. A spelling mistake doesn't mean I'm retarded. I literally have not said ANYTHING trying to convince people to believe this. I just thought this video was interesting. I don't understand why you keep coming to this thread if you don't like it and are just posting negative shit.

Plus, it's funny how you say " You're proof smart males don't exist on hackforums.net" when you didn't put the "that" after proof. Doesn't make sense.

And no, I'm not going to close the thread. What makes this moronic is you spamming my thread with negative shit. I thought this was interesting and I wanted to share it.

Fuck off from HF, we don't need ragers like you that just spam the forum with negative shit because they like get abused at home or something. Go outside and do some exercise to clear off your mind.
