Thread: [Web development / Design || Html/css/jquery/php/mysql work](#)

Shroomies - April 24, 2014, 10:00 am

Hi there, i'd like to offer all of you some of my services as a ninja.

What do i offer you may ask? PSD to HTML (responsive / non-responsive)

Wordpress templates

Custom jquery/css3 animations

Custom php scripts

Mysql database related work

Fixing your code ?

Tutoring basics of php/jquery

What makes me a true ninja? ?-I'm lightning fast (you won't even see me work :D just bam! and ready)

-All my scripts are built with security in mind

-I'm beating all the other competitors. ?

Also the rule is NO ILLEGAL stuff (i'm accepting any fake webs thou).

You don't have a graphic design? No problem, i can take care of that for you too (my friend cooperates with me).

You can see my example projects by PM'ing me.

Also, since i'm starting this service on hf, first person that i'll deal with will receive a neat discount. :)

Maybe you could make a website for me that looks 10x better but kind of the same thing like this?

www.anythingrelatedgaming.com

Get back with me in pm.

Added you on skype.

I'm currently free and looking for work. :)

BreastMilk - April 28, 2014, 11:35 am

Huge vouch for Shroomies, he did some work on my website, very impressed.

Shroomies - May 1, 2014, 3:41 pm

Bumpity .
Newest in here. Working on some projects currently. :)

SIM-1809171 - May 4, 2014, 2:28 am

Vouch for this guy. Building me a website as we speak. Paid half and the designs look AMAZING.
He also built me a custom script to go with my website.

Dont hesitate to purchase from this user.

Will update when I have recieved the finished website from him.

GLWS dude

Shroomies - May 8, 2014, 3:29 pm

Bumping the thread as i have a bit of free time. :)

Hello I need one small help,

I have FTP account for some website and i just need to create MYSQL Database through
FILEZILLA
How could i do this

Shroomies - May 10, 2014, 1:25 am

Provided you have the access to some kind of root mysql account (or at least one that can create
databases) you can just run a php script to do it.

You would just need to connect with your mysql server and then query this -> "CREATE
DATABASE my_db";

For ex.

```
Code $conn=mysqli_connect("yourserver.com","root","rootpassword");  
$query="CREATE DATABASE my_db";  
mysqli_query($conn,$query)
```

No error handling above, just wanted it to be as simple as possible.

Doseon - May 10, 2014, 1:43 am

One of the nicest guys I've come across on HF. Very informing but has no hard working web designer by his side. Once I get a nice web design, I will be looking forward to his services (:

Shroomies - May 10, 2014, 2:40 pm

Bumpity . Thanks for all the vouches btw. :)

FintCH - May 12, 2014, 9:08 am

very nice guy , nice communication , friendly man big vouch

24/7 - May 12, 2014, 9:16 am

Are you experienced on bootstrap? I might have some jobs for you then.

About ";" i've just copied the code from my own files and must have forgot. About \$query, ofcourse it's not needed, but this makes the whole thing i'm doing more visible. As for me you're overtrying to be a smart guy in here. :)

Tits - May 15, 2014, 3:00 am

Many vouch, such nice, very design wow. No but seriously this guy is very nice and i have seen some of his designs and he's amazing!

Sensiz - May 17, 2014, 6:37 pm

I have a CSS job for you , check your private message !

J0K?R - May 18, 2014, 12:26 pm

I just wanted to post back after Shroomies did work on my site. He is extremely helpful and understanding, to top that all off he is an expert at his work and will not stop until you are 100% satisfied. I would vouch more than once if I could. Do not hesitate to deal with this individual.
