Thread: [Who was known in each playlist? \[H3\]](#)

Jeff Winger - April 25, 2014, 12:40 pm

This doesn't technically have to be from HF, but overall. And I highly doubt anyone runs this game now, but I guess a few years back. My memory is a bit fuzzy, so it's hard to remember. If you remember anyone, just list their GT. I played Swat a lot, so I will most likely know players from that playlist.

Lone Wolves:

- RippinHeads
- Avoided
- Vetoed

Team Slayer:

- Ssyphon
- Godhaand
- Riot
- Baylor
- Slish Slash
- xX Drac
- Arsenal ATX
- Relayed
- Purpul Haze
- Free Fall
- Louie
- Black Jack
- Killa Cam
- Madsniper
- Exiled One
- Azn Soulja
- K Slice
- Parabola
- Donut
- Official
- GunRunner
- Salmon Sauce

Team Doubles:

- Missy
- Cobruh
- Fox
- Dom

Team Snipers:

- vl ReD lv
- Powerjet
- Felipe
- LilCutie4U

- I gets bizzay
- HeavyGunn3r

Team Swat:

- I YA BOY I
- CaLL Me J3east
- Yankees
- Bionic
- Recoil
- SprayinShotz
- Jaws
- BloodMoney
- LinTT
- BESTOWER

Name if you can remember any from some playlists.

I remember boss syrup from the team snipers playlist he was a pretty good sniper

Pretextured - April 25, 2014, 12:46 pm

naded was good idk what he played tho i think ts or mlg

Ohhh DaYuuuM was pretty good in snipes and mlg

Jeff Winger - April 25, 2014, 12:51 pm

Don't think I remember Ohhh DaYuum from those playlists. Remember Boss Syrup and yeah, Naded might have been Slayer or Dubs.

HollowSquad - April 25, 2014, 1:02 pm

Rippin Heads was a boss in lone wolves.

Rofl Gun - April 25, 2014, 1:03 pm

There were more known people in SWAT than J3east and Your Welcome.

To name a few:

Recoil

Itz Swaggerz (Dangerously)

Bionic

Tragic

Yankees

You are just digging yourself a big hole by making a thread like this, imo.

Jeff Winger - April 25, 2014, 1:08 pm

I remember Yankees and Bionic, but the other four don't ring a bell. Also, J3east was for self pleasure. :p

Jeff Winger - April 25, 2014, 1:15 pm

I'll add him to the list. I might remember him if his GT had spaces in between them.

Semi pros do not technically exist. A "Pro" is someone who makes a living out of a game. There are no longer any Halo Pros, and the pretty much only ones that ever were had a contract with MLG. That is about it.

Since when does SWAT skill = 1v1 skill?

I didn't play much of SWAT but I know a few guys on the list and they would easily destroy me if I matched them in SWAT.

It doesnt just giving an example. I matched the top SWAT kids in H4 a year ago, even with me having under 20 swat games played I win. The GB kid Monopoly matched me in Reach a long while back with a team of 4 GB sweaties, I was alone in swat and it was my first game of swat in months, and I went 19-7 not camping. I am trying to say SWAT really is unhelpful and easy.

I am aware. I have not played H3 in over 3 years at all, I do not remember the community all that much.

In H4 I beat everybody a year and a half ago when there was minor competition.

-> I am not claiming to be the best, but there are no people still on H3 regularly that would beat my skill level at what it was 1.5 years ago.

In Reach I am not as good, still having ?no games neg against top swat teams.

lol, Swat is HELPFUL. It's the only playlist that helped me lead my shots and it's somewhat easy. Host fucks people over a lot in it. Also, loads of Swat Kids are good and I actually want you to list the people that you beat.

Um, no, I honestly cannot remember who I beat. It is NOT helpful. It is ENTIRELY host-related. I cannot say in H3 or Reach since I havent played swat in over a year, in H4 I have beat pretty much everyone.

Not 1 kid on the SWAT leaederboard in Reach that I can think of has beat me in MLG when I match them, the most recent example being Master Debation and HostEE.

They play terribly strategically.

If you want to be legitimately good at the game, MLG tests that.

Jeff Winger - April 25, 2014, 4:45 pm

Why are we talking about Reach or H4? This is strictly Halo 3. My point was, that Swat helps you lead your shots. If you get a headshot, they die. It kinda forces you to shoot the head and it's helped me get a better BR. In no way am I denying that it's an easy 50. It's probably the third easiest 50 to get, first two being TS and TD.

I'm tired of people saying only MLG takes skill, specifically I would like to address SWAT. Everybody says SWAT is the easiest playlist, which I find absolutely hilarious. I am not exaggerating when I say I have helped over 100 people get their SWAT 50s. Not all of these kids were terrible illegitimate 50s, rather many were solid doubles, slayer, MLG, or snipers 50s. Sure it's easy getting 20+ kills low level SWAT, but once you start playing 50 high, don't expect to be the greatest. You cannot even blame it on host, because most of the time, the SWAT 50 5 stars are not the one with host. I see these random 45-49s in SWAT trying to get their 50s run as an elite, on host and still lose. And you're telling me SWAT takes no skill? Just like any playlist, SWAT takes specific skills to be great at it.

This message was brought to you by a basic bitch typing on her MacBook Pro in Starbucks.

Sure it's easy getting 20+ kills low level SWAT, but once you start playing 50 high, don't expect to be the greatest. You cannot even blame it on host, because most of the time, the SWAT 50 5 stars are not the one with host. I see these random 45-49s in SWAT trying to get their 50s run as an elite, on host and still lose. And you're telling me SWAT takes no skill? Just like any playlist, SWAT takes specific skills to be great at it.

This message was brought to you by a basic bitch typing on her MacBook Pro in Starbucks.

I am not saying MLG is the only playlist that takes skill. I am very aware EVERY playlist takes skill. I am saying that, anybody interested in making money from the game HAS to be good in MLG, and

playing SWAT doesn't help with that.

EVERY playlist has it's pro level players, if Snipedown played Reach Living Deadhe would never beat Wound Safe.

I believe I have made more money from H3 than some MLG kids that are definitely better than me.

Fair enough I guess.

I think we hijacked this thread ?

Jeff Winger - April 26, 2014, 10:07 am

MLG isn't all that hard to get a 50 in if you have a good team or play with one. I actually think Snipers is the hardest 50 to get.

IMO Snipers is easily the second best playlist to MLG, but I was always bad in it. I have never been much of a sniper.

vetoed was highly known in lone wolves.

p m - April 26, 2014, 2:01 pm

I wouldn't say I was known, I guess it was just that a lot of people played against me in Team Slayer, loved that playlist. Even back in Halo 2, that was my thing.

Could also be that my tags were super short and easy to spot and remember.

In regards to being known, that thuggish internet clan mDk is talked about every now and then on twitch and halo 3 MM.

VIATTY - April 27, 2014, 4:41 pm

Do you mean known players or good players. There's a ton of people known on this game who aren't very good. People like arcadia vix1t, mavs and Sandshrew who are pretty terrible at this game.

Lemonade TBSA was pretty good at MLG. I'm pretty sure Renzo copied that and followed his trend. He was from 2009, I think he submitted a few clips to Zola's Legacy montage.

But you forgot all of the Aussie legends :O

Btw has anyone seen that list someone made of the top 100 players in h3? It's going around in the twitch channels, wonder who would ever have the time to make that list...
