General Introduction:

Be sure to read the entire post, this will explain most of the information that is required to know, so don't skim it, actually read it or you will regret it later on.

Welcome to The Empire Recruitment thread! The Empire is once again recruiting, looking for new members to join the most active and one of the oldest groups on Hackforums. Members who were kicked or declined in the past recruitment are welcome to apply again. To elaborate on our other recruitment threads, we want to know more about you as a person. With that said, creating a video or voice application is required this time around. Though we do accept software, website, or graphic applications, however no plain text applications will be accepted at this time.

Members can nominate applicants for further review for the group, but even so, if you'd like to be one of the members to make it into the group, be positive that your application is full of effort and thought.

The last Recruitment Thread can be located [here](#).

Basic Guidelines:

Around 60+ posts per month of the account's age

Must have acceptable grammar

Usually an upgraded member or a very committed non-upgraded member

No LQP or Harassment Warnings

No legitimate open or unresolved scam reports

No trolling or flaming other members

Application:

We will only accept video and voice applications, if you want to do something different then you must show off your talent/skill in it, such as code a website or program, or design gfx to say what you want said. No plain text applications will be accepted. If you have another idea on how to make your application feel free to try it or ask us, however we will not accept any plain text applications still.

Answer the following through a video, voice, coded, or graphic application:

- State your first name and username, then your religion (if you have one) and age.
- State why you want to be in The Empire.
- Tell a little bit about yourself personally and what's important to you, anything that has heavily

impacted your life.

- Tell us about how you found HF and what you mainly do / have done here.
- State anything else you want to say and finish with why you believe you should be added.
- The goal is 3-5 minutes, but no longer than 5 minutes please. Once finished just post a link to your application and any notes you wish to add in this thread.

Adam's Quick Tips:

(May 20, 2013 10:54 AM)xadamxk Wrote: [\[CITE\]](#) I will repeat what Tibit and other Empire members have stated.

If you truly want into the Empire, prove it to us.
Show us that you DESERVE to be in the group.
I can promise you that you will appreciate the group if you are accepted.

Just some tips if you want your application to stand out:

Make your application unique.
Make it lengthy, but be sure for it to hold it's quality.
Use your personal skills to make the application: GFX, Gaming, Coding, etc. Show your specialty.
Be sure to use a set format, colors, themes, etc. Organized = good/ attention catching.

Show that you want in.
Again, the length can have something to do with the result of your conclusion, but ONLY if it holds quality from beginning to start.
Do a top 10 reasons why you want in, make a video application along with the required application.
Do far more than the required application asks for. Again, show us that you want to be a member of the Empire.

Tibit - April 26, 2014, 5:33 pm

Good luck to those who apply. Be sure to read the thread before applying. We only expect to add about 10 members from this recruitment and don't expect to recruit again until the Fall.

Anyone who is not up to my standards may get raped, you have been warned.

Mopex - April 26, 2014, 5:34 pm

Sad to see its only video applications.

Anyway good luck?

Video, voice, graphics, code a site or program, etc. Those are the formats we're doing for this recruitment thread, tired of boring long drawn out text applications, we want to see something different and only want a small number of recruits.

iDuL - April 26, 2014, 5:39 pm

If you can't do a video just do a vocaroo application.

That's what I might do.

Troye - April 26, 2014, 5:41 pm

Good luck to all applicants. I am a newbie noob to The Empire and I've loved every minute in it. I can't wait to see some videos.

We are a group that enjoys having debates, think of The Empire as a debating group. Though we enjoy the massively high activity of lounges.

This is very original to bad I got none of the skills listed above :P. Good luck with the apps this group is HQ.

thing. 15 high quality applications.

These requirements aren't too hard. It is really like creating a "My story" video compared to other group applications.

Just my 2 cents, good luck with the group!
When I applied a few months ago, I was 14. Had loads of acne (still do). And yet I made a video application. I acted as myself. We don't give a fuck about your age or how you look (of course you have to be mature) - just as long as we get to know you as a person.

I love The Empire, it's my personal favorite. Spend time on your application and you'll be rewarded. If you have skills you can use, use them. I spent about three hours on mine.

No, it is not a 'blackhat' group, I'd try Legion for that. The advantages are having a family environment, having a place to have debates and take part in intellectual discussions.

Mercenary™ The Empire Application !

[img]http://imageshack.us/a/img90/6030/bannermo.gif[/img]

About Me

Name: Jason , Runner

Age: 19

Gender: Male

Religion: Christian

State/Country: MD , USA

Time Zone: -5 GMT

What are some skills that you have (Explain in depth with examples):

I am Advanced in marketing and have been an Entrepreneur for about 6 years have my own business consulting company just filled paper work for the llc on it we build websites do social media managment for the companies market the companies ect... I love partnerships and new products or services and would love to assist with the empires product line ! I am very good At investigating into things , I investigate websites To find out If they are legit or scamming people. Currently I am investigating The "Suicide " Of a HF Member Who Was bullied In The ub3r Skype Chat Ill add link later , I have Been contacting the family Of the young 13 Year old To gather evidence From His Computer And I made a promise To him the night Before He supposedly committed Suicide I was linked To a article From a local news station But his recent posts Before He passed Away Seemed Very Normal Not Suicidal .

UPDATE : It was not a suicide They just drove him off of hack forums With some very mean sites made about him with his dox and inappropriate pictures .

What section are you most active in and why?

I Am Very Active In The IRC , Botnet section because it is what I am Most interested In, But I have been catching up in the Hiring and partnership Section because I love making projects and helping other people complete there projects I have went thru the life of many websites many booters Helped them get setup and made alot of money from that section I guess you could equate me to a project manager because I get stuff done ! I love projects , Hopefully the Empire has plenty of projects or even just one for me to help out with !

Why do you want to join The Empire?:

I would be Honored to join The Empire because I am Advanced in marketing and have been an Entrepreneur for about 6 years have my own business consulting company just filled paper work for the llc on it we build websites do social media management for the companies market the companies ect... I love partnerships and new products or services and would love to assist with the empires product line ! since I first Joined HF the very first person I looked Up To for help was Tibit and he helped me and got me to the group I am In now and I am So So Grateful for that , Also the member Mad Who is also In The Empire Is an amazing help to me With My Linux Bots ,

Why do you feel you should be accepted into The Empire?:

I feel I should be accepted Into The Empire because I Would love to help newer members in every aspect of hacking Ect because I belive everyone starts out somewhere and I believe someone needs To help them Get started as Tibit did for me !

In one to three paragraphs, tell us a little bit about yourself or something memorable that happened in your life, what makes you who you are and who are you:

Always was good at hacking at first it was Just to be better at flash games my friends and i used to play so i used cheat engine i thought i was a badass using cheat engine on school computers in elementary school, my parents couldn't afford a quality computer so my uncle Bought me a brand new computer so i thought back then ,I look at it 2 years ago at my grandmothers house It was a stolen windows 2000 , I from there larned batch coding and stupid things of that sort it wasn't till i was about 14 that i stopped hacking for fun ,I had a big house a badass 4 core i bought myself then huge financial problems i move to an apartment i started hacking to make money , Now here i am about to go into the Navy Seals Hacking for fun almost all the profit i make i donate to HF or some random begger , My new goal is to help as many people as possible On HF

Where do your priorities in life lie? What is most important to you?

The highest is Family

Family Always will come first to me because when you lose everything and everyone your family is still there for you standing by your side like they have always been (hopefully) .

My Career

Of going into the Navy Seals Shortly I am very disiplined when it comes to what I eat And my workout ,

Groups , Friends

I always help out my friends as long as it does not interfere with the two above priorities !

Anything else you want to say:

Thankyou for taking the time to read my Application !

More Importantly I was in The Empire for several months and loved it and then was safe thru all the mass kicks since I was helping with several sectors then after a mishap with one of the leaders that resulted in me out a few hundred dollars I was kicked witch deeply disheartened me from my thinking of Long live the empire considering I was one of the most active members in the subfourm and skype chat.But I am hoping this is my second chance to join the family again.And I truly hope you the leaders and members of The Empire grant that wish and dream to all of our benifits.

One of my poems/creative writing pieces:

Spoiler [\(Click to View\)](#)What is life?

Is it wrong? Is it right?

Why do I die to live, when I actually live to die?

Maybe the 'f' is placed to disguise life as a lie

Gravity kept me grounded, but now my soul weeps to end in the sky

I think about you in the night as I let out a sigh

No presents, but your presence: I'd buy

What is life?

In a world full of dark thoughts, can I see the light?

Propaganda made me think that my future is bright

In reality I only see disaster in sight, but I realise as I write

That life isn't guaranteed, I might not make it back tonight

Life can be pain, scarring mentally. I want you before and after I die

But I feel you slipping from me, you might just be worth the fight

What is life?

Life can be beautiful, life can be joy

Trying to achieve my dreams: Wife, kids, a stable income from being employed

Like seeing a newborn baby with us, girl or boy

Perhaps seeing our ecstatic child after receiving a new toy

What is life?

Is it the truth, or is it a lie?

I found out the answer when I fought for you

Life is oh so gold, that life is actually truth

I saw the light, the opportunity, I chased it too
I done it for the connection of me and you

The cold wind slapped my face and awoken me, I discovered love
The hairs on my neck stand up from your touch
You are a blessing for me, sent down from above
A beautiful sight and a serene sound like a dove

The waves of compassion, crashing through you and me
Passion intertwined, we connect with such fluency
You're priceless compared to diamond jewellery
Passion. Trust. Love. Ingenuity...
Life in the end is like you, something of rare beauty.

Thank you for taking the time to view these.

Even if the thread is closed, send your application to OP, and he'll distribute it to us.

Listened your note too, no worries.

Make a good application and most things will be looked past.

You could have just said it was a batch file rather than make it super sketchy ?
Nice application though, we have a few members majoring in CS as well.
Had to read fast on this one.
Thanks for applying.

If you make a good application and prove you want in, it can be looked past.

As active as a marathon runner on cocaine.

No, not at all.
You are you, and we want to see that.

Thank you for actually embedding your audio, mic quality isn't that bad compared to some.
Damn good application, and I like what you had to say.
You don't have anything outstanding to say, but you still prove to be unique, I like it.
Thanks for applying and damn good audio application.

Recording software seems fine to me!
I too would rather be inside most the time, pale kids unite ?
I can tell what you said explains the type of person you are, which is good!
Thanks for applying, and hopefully you'll hear back from us.

With a pretty good hangover, I have successfully gone over all viable applications.
(For those of you with random static-y applications, screw you, it hurteded my head)

Good applications so far, keep them up!

And if you have any questions, feel free to post or PM them!
Thanks for replying back to my post. Sorry it seemed a little sketchy xD. Although, I figured I would correct something. It's a console application not a batch file. Batch files use commands that command prompt can interpret :P. Looking forward to seeing whether or not I'm accepted.

I just realised I forgot religion.

I believe in good. The name in which people call it is not important to me. If you offer warmth to those cold, food to those hungry and a point in the right direction to those lost you will always go to a better place.

I still have an Ableton installation disc somewhere.. Never used it because I was satisfied with Cubase and Logic Pro.

Is Ableton worth it?

Nice application too.

Thank you and I think so. I originally used Logic Pro for everything but once you get used to the looping functions and layers of Ableton you can create scenes and play around before finally deciding the layout of the track. It's still new for me but the more I use it the better I think it is for creating ideas and making instrumentals but then I prefer to move to studio one on my laptop but logic on my mac for recording the vocals and mixing. (cubase, pro-tools and many others are also good)

Just out of curiosity - you mentioned that you do a bit of programming as well.

Only a small amount I'm afraid I have developed a couple of very small control style applications using C# these are branded for companies that use them during optimisations along with another application that cross searched the UK Insolvency Register finding people on an involuntary iva and using their surname and postcode and search the BT phonebook and print text results as leads. I sadly don't have that project anymore and it took along time with very little knowledge. I am happy to send you one of the toolkits if you wish but programming itself is not my strongest skill but I am willing to help if needed.

Explain, with detailed examples, what your skills are:

Web Designing and Programming is something I enjoy. In my short tenure of being a HF Member, I've helped multiple users with MyBB, as well with advice. Coming to MyBB, I have a very decent knowledge of coding in MyBB. Some of my works can be found below. In addition that, I've experience in Coding with phpBB, SMF & IPB. I'm good at fixing and patching vulns. I have experience with server management as well other coding languages like SQL and css.

1. <https://hackforums.net/showthread.php?tid=3893914>
2. <https://hackforums.net/showthread.php?tid=3902322>

My hacking skills are related to Website Hacking. I started learning how to exploit SMF 1.0 Boards via old, unpatched bugs and the first SMF Website I had defaced was a Gaming Forum. Shortly after that, I learned to use vuln scanner to add with SQL Injection which I used with vBulletin 0day exploits. It was fun to run scripts to make Admin accounts. And, I had some experience in defacing MyBB sites via Template Vulns which allowed to execute php scripts. I did it for non-harmful uses.

Coming to Graphics, I've to say that I'm not an expert but I like learning. The only thing I'm good is with making signatures. I started with making of Gaming sigs. I usually use Photoshop CS. I've learnt a few things like Abstract Art, Vectors, Air Brush Art, Doping and Transparent background making. Some GTA Sigs I made below:

Spoiler ([Click to View](#))

Computing and Hardware are another of my favorite subject. I like knowing more about Hardware, Setups, Programs, Builds and Interior. I used to dismantle my CPU and take a look at things and fix them back. I've even modded Windows XP, tweaking shells and patches with self extracting I386 Components

Which section are you most active in and why?

I post in the L33T OT section, Group Subforums, Webmaster Section & Lounge Sections frequently because I enjoy talking to people in the Upgraded Members Lounge. I find the people in that section very friendly and willing to help out.

Why do you want to join The Empire in particular?:

I would like to join for numerous reasons, one being, Empire is one of the largest, most high quality groups on Hackforums, if not one of them, and then it's the most high quality. Empire is very appealing to me. The group is very well organized and I see you guys only let in very few members and those few members are very high quality. The output of this group is amazing, I see such good quality posts and contributions coming from the group, I have seen discussions around the forum from Empire members and it's mostly meaningful, high quality, or serious posts, none of the garbage that other users post.

Why do you personally feel you deserve to and should be accepted into The Empire?:

I think I would be a valuable asset to the group simply because I'd like to learn and share. The Empire is a great group and accepts potential candidates. I think I'm potential as I try at my best to help and learn at the same time. I've vast experience and I think I could help with my above skillset and get to know people by representing The Empire.

In one to three paragraphs, tell us a little bit about yourself personally or possibly something quite memorable that happened in your life, or an explanation of what makes you who you are and who are you:

I'm an average 16 Year old guy, just like most students of my age. I'm passionate about Computing, Movies, Soccer, Cars, Military Planes, Thermodynamics and Advanced Wave Communication Technology. I spend time browsing Hack Forums & listening to Last.fm.

Who doesn't play games? I have a PS3, PS2 and Xbox. I not only game, but mod games on consoles. Cheating is the best part about gaming.

My games:

Forza Motorsports 2,3
GTA San Andreas/SA:MP
GTA IV (Episodes Disk)
GTA V/GTA Online
Call of Duty BO2
Modern Warfare 3
Black OPS
Call of Duty 4
Halo 4
Halo 3

Counter Strike GO
Midnight Club Los Angeles
Need for Speed The Run
NFS Most Wanted
Need for Speed Carbon
Team Fortress
World of Warcraft

And, I hope to be a Tele-communication Expert in future and work under the wing of a good company.

Where do your priorities in life lie? What is most important to you?

Priorities? My real life comes first for me. What everyone wants is a degree from a good university to pursue a career. I want the same. I hope to be a Tele-communication Expert in future and work under the wing of a good company. Besides that, I'd like to purchase my own dream car which I always aspire of. Moving out of the city is my first step to it.

What caused you to stay active and be part of the community on Hackforums after first joining?

The community is great as a whole and most people I've met on HF are friendly and willing to help. The day I joined, I got a warm welcome and everyone pointed me to the right way. Unlike most forums, HF has an active community which participates in discussions and the best places to lurk for me are the Lounges and SRPP section. I was tempted to upgrade, so I did upgrade to L33t. I enjoyed each and every feature L33t had to offer, although I got denied for Ub3r weeks back. I mostly spend my time in Webmaster and Upgraded Sections.

Anything else you would like to say:

I would like to be apart of The Empire. I feel like I could learn a lot from the members and hopefully teach them some of the things I know. I would love to be able to talk in the sub-forum. Thanks for taking your time to review my application.

Sure, make sure when you listen to it we can hear you as well, several applications were hard to hear with the volume all the way up.

I'd just recommend if you are making a new one to delete your old post and make a new post before Sunday so we notice it, some leaders have already finished reviewing applications up to this point.
