Thread: [osu! play requests](#)

-Lily- - April 27, 2014, 2:45 am

There's an osu! thread here.

This is the best subforum to post it in I guess.

I'll attempt to play any song you post here (without cheating) and upload my replay as a .osr to my DropBox.

You must give a Bloodcat link to the song. I won't be creating an osu! account just to DL beatmaps. Optionally, you can request me to set a local username, for proof.

Maps must be ranked.

My point is you said any map. They gave you maps

Yep.

And I attempted them.

I see no point.

I didn't violate anything I said in the thread.

Also, I later stated "ranked map".

I tried Image Material but I can't do it, so therefore I attempted it.

Am I supposed to make a replay of a song I never finished?

Should've edited the OP earlier to say any ranked. Instead of saying later on "only beatable ranked OK HURR DURR" and yes make the replays you said you would.

You're arguing a shitty point.

I already updated the OP.

Either request a map or leave :/

Should be fairly straightforward but I always mess up ~2:00 and I have never gotten past that point without HT T_T

Also this one, it's a bit easier but I like the song :)
