Thread: [GUF \[UDP Flooder \]](#)

zeroexp - April 27, 2014, 3:37 am

Hello community, i know I am pretty new here but i decided to share with you my little project for this small and nice UDP flooder ?

It is multi-threaded and it may still have some little bugs here and there ...

I'm pretty new into coding with VB so i'm sorry if you find anything wrong :D

CREDITS TO Earn & AeonHack for the theme !

Photos:

Virustotal:

The full link to the Virustotal scan is here: [CLICK ME](#)

Download:

Link 1: [CLICK ME \[Mega \]](#)

Link 2: [CLICK ME \[Mediafire \]](#)

REQUIRES AT LEAST .NET FRAMEWORK 2.0

TheBarret - April 27, 2014, 4:05 am

A udp flooder should be flagged as trojan that does not make any sense.

zeroexp - April 27, 2014, 4:09 am

I have seriously no idea about that... i just got 3 detections... i know new people won't be trusted so easy so... i can do a video over how i download the file from the thread and run it... or maybe upload the source ? It would be pretty exaggerated but if it is necessary .. :D

TheBarret - April 27, 2014, 4:11 am

let me check that code real quick coz i find this highly doubtfull

zeroexp - April 27, 2014, 4:15 am

Here (unavailable now) << is the source code... Take a look. I can't send PM's atm :(

TheBarret - April 27, 2014, 4:19 am

Hmm looks ok but i see alote of weird stuff in there, like

```
Code ...
```

```
Do While UDPNF = False
```

```
Exit Sub
```

```
End Sub
```

Why would exit a sub routine that is already on its end ?? thats like 2 exits on the exit.

Yeah that makes no sense, Even if UDPNF = True it will still exit ??????

I don't know why do you have 3 detection there, but this is as simple as 10 lines of code.

swisch - April 28, 2014, 8:57 am

thanks for this man, does it need to port forward?

zeroexp - April 28, 2014, 9:41 am

No, not at all... Thanks for the message :D I appreciate and it's important for me because i'm new here.

Ub3rHax0r12 - April 28, 2014, 7:27 pm

that download button tho XD but it looks legit. Haven't read any replys yet

dR1234 - August 19, 2014, 1:13 pm

What is the theme name pleaseee? Thanks you.

zeroexp - August 20, 2014, 12:42 am

Can you stop gravedigging my threads asking which theme i used?

For fucks sake this was literally my FIRST post on hackforums..

I gave credits, just look at the post, or download the app and click the credits button.
