It's very simple, yes. Someone with absolutely no computer knowledge could do this.

I have never once seen this method before, and I've seen hundreds of methods.

There is no investment needed.

There's little hard work. There will be some work needed to set up the method, but it's fairly easy and simple. It can be autopilot once set up.

my review

Content: 8/10

The context of this ebook was short and sweet and next to perfect.

Ease of Use: 10/10

this eBook provides quick and very very easy methods that are beneficial and nothing less than promised!

Grammar: 8/10

the layout and grammar is good its readable and easy on the eye! that's good enough for me!

Overall: 9/10

my overall decision 9/10 was based on a few aspects of this e-book 1st: being how easy and quick the methods are. 2: the layout and noob friendly wording and context are amazing. i could ramble for ever but just trust my judgement! and buy this MOFO

There's no guaranteed amount, but you'll make around \$100 per day as long as you follow the ebook and put in some work.

It's pretty much impossible for you not to get your \$20 back.

The method can saturate, but it's unlikely unless hundreds of thousands begin doing this at once.

CPD? You mean CPA/PPD? No, it's neither of those.

It does not involve picking a niche.

Ben was nice enough to give me the ebook before I pay and honestly, this is one of the best methods on Hack Forums. It is very very very simple and easy. All it is is a few clicks and you make bank. Not a survey, I will tell you that, just dont want you getting the wrong impression. It is very well written and easy to understand, I, myself, am not that smart when it comes to all these big technology words and he explained his method to us like a BABY in that ebook! I would also like to say this is not paid review, if you want proof just ask me :P ! Do no hesitate to buy this, you legit make your money back in less than a day if you put around 7 minutes or so into it. ?

Method seems like it's full of shit. Involves referral links through YouTube. You sign up with a partnership network then try to get YouTube channels to sign up with that network using you as a referral so you make money for bringing the two together. Essentially, it is quite stupid. Don't see why people are going crazy over it.

This will lead you no where.

This ebook is indeed legit "as fuck," yes. ?

?osty - May 24, 2014, 7:37 am

Well after reading it, I was all positive(you can see my vouch I posted the day I bought the eBook) and started setting up everything within a day and even thought outside the box and worked harder.

It has been 15 days already and I haven't made a single penny (I actually lost more money because I decided to invest time and money in this because I had high hopes) INVESTING IS NOT REQUIRED BTW, either the method is saturated or it just never worked. I believe it's saturated though.

I messaged Astral a few times didn't work out as I hoped he told me "To look at it from a different angle." Told him that it's not mentioned in the eBook how so asked him to tell me how.. No response(he opened the pm though). I also asked for a refund, he told me he does not offer refund.. So basically if it doesnt work out... You're stuck ;)

So think of this before you buy the eBook it's easy and all to set up, but effective? That's up to you, it wasn't for me. And knowing myself, if a method works I can deff get it to work with the skills I have. He was also impressed with how fanatic I executed the method.

The method was good explained though. And Astral seems like a nice dude. Too bad we couldn't work this out.

Like they say "If it sounds too good to be true, it probably is."

GLWS Astral :)

It's only 10 dollars though so whatever...

Maskin - May 25, 2014, 9:49 pm

ebook is good, haven't seen this method before. However this is a POTENTIAL income, not guaranteed, it all depends how much work you put into it. I tried for a while but honestly this feels kind of saturated, unfortunately :/ Stopped trying ?
