Thread: [Connect CS 1.6 with Proxy](#)

GI4diat0r - April 28, 2014, 2:08 am

Hello there.I was playing on a server on cs 1.6 for a long time but i got banned because Admins were thinking i was hacking (but indeed i wasn't) and i want to play on that server because i like it.Anyway,i play by LAN (STEAM_ID_LAN),so it seems they banned my IP (and username maybe).I have a static ip and i can't change it.So i'm asking how can i use a proxy and connect to the server again.

Thank you!

Does this also changes the IP for online games or for sites only?

With the VPN you change your ip on browsers, games, everywhere
eg:

(without vpn)You -----your ip-----cs 1.6 server

(with vpn) You----your ip----VPN server---vpn IP----cs 1.6 server

Got it?
