- [+] Provides a layer of security and anonymity by hiding your real IP address
- [+] Bypass your ISP restrictions. Use Skype, Yahoo and Google Talk in Middle East and Asia. Visit censored/blocked websites in Thailand, Qatar, China, Turkey and many more
- [+] Bypass mobile cellphone VoIP/Skype restrictions (famous in european countries)
- [+] Secure connection between your PC and the Internet (1024bit)
- [+] Your office/school CANNOT monitor your activities
- [+] Unmetered bandwidth and NO Speed throttling
- [+] Choose your IP address and with this the GEO Location based on your likes
- [+] You need to appear as a Russian resident online? No problem with us!
- [+] Port Forwarding - open the ports you desire in your client area, ports are then opened instantly automatically, without any delay! (No more need to Portforward in your router setup)

Vouch, works for me.. no need to go and buy one.

Xabis - April 28, 2014, 3:12 pm

Did i just get a fucking virus? I opened and it won't show in the folder when I open it.

reama - April 28, 2014, 3:24 pm

Don't fucking download this. I am Reama, this is a rat. Fucking fool.

MissChiff - April 28, 2014, 3:25 pm

I knew it was too good to be true. It's a shame.

Cyph Jr - April 28, 2014, 3:25 pm

Reama Has been hacked don't download this!.

Xch4ng3 - April 28, 2014, 3:26 pm

If you downloaded this file, get yourself checked out in the White Hat Help section.
