So in other words you're distributing an eBook which the author himself refused to share...?

Yes, i got his permission. He created a new ebook and this is old.

Before I shared it here, i got his permission to share and he gave me the go ahead. I didn't intentionally come here to share. He gave me the go ahead to share with whomever i want.

Mostly E-whoring and completely outdated, but you are right, still better than most Ebooks sold here.

Thanks for the share anyways :)
