Thread: [Anime Youtubers: Who do you watch?](#)

Gladly - April 29, 2014, 7:15 pm

Enjoy anime? Enjoy YouTube? Here's a list of nearly every anime YouTuber out there, in order of subscriber count; enjoy.

[Giant anime YouTuber list](#)

On a side note, what anime related YouTubers do you watch, or you'd recommend to others? For me, it'd have to be:

[AA WEBSHOW GO WATCH RIGHT NOW](#) - cough

[Podtaku](#) - Anime discussion podcast. Serious and on topic at times, off topic and funny at others.

[Demolition D+](#) - Fucking hilarious. Go watch right now. One of my top picks.

[GRArkada](#) - Solid, completely serious reviews and discussions. Probably my favorite serious reviewer.

[GARticuno](#) - Anime OST + gangsta rap mashup = genius.

[Gigguk](#) - Great reviewer with a tiny bit of satire, unfortunately very infrequent.

I am saddened with the placement of the AAWS on this list...I feel it deserves to be higher.

Gigguk is great though, he has an amazing Nisemonogatari review which puts me on the floor laughing every time I watch.

Same as you except GARticuno.

Edit: Actually now that I look, I have seen some of his stuff. I've never really looked through his

channel though.

<https://www.youtube.com/user/FightingforNippon> is pretty cool too.

That toothbrush scene probably one of the most epic scene in all of Anime history.

I only really watch two people. One of them do in depth about the anime while the other one makes me laugh.

Pretty much just Gigguk really. Really good videos.

Some of the channels I watch:

[Most of the Podtaku/J-Taku members](#)

[ThatAnimeSnob](#)

[Riyogaa](#)

[ForneverWorld](#)

[YokuramaGameTalk](#)

[TeamFourStar](#)

[FightingforNippon](#)

Just gigguk pretty much. Hes one of my favorite youtubers.

Rakshasa - April 30, 2014, 8:57 am

Guys guys guys... Where is my DraconisMarch? The single best critic in the history of critics:

Seriously though, pretty much the same as you OP.

Demolition D+ is my favorite anime-related channel on youtube by far.

Gigguk probably has the most entertaining reviews you'll find. His old reviews are pretty shit doe. Arkada has the best actual reviews and is pretty frequent on uploads. We have a similar taste as well so there's that.

Been following Podtaku almost since they started, or since their second upload. Honestly speaking,

I liked them more before.

BennettTheSage is solid when it comes to older anime, but not much other than that.

Who in specific? The only channels worth watching related to Podtaku in my opinion are gigguk and Arkada, it's beyond me why Holden and Jean even call themselves reviewers..

I like watching the seasonal discussion stream thingy with Bakashift and co. though.

These two for me as well. ForneverWorld is pretty good reviewer and Double4anime adds the comedy aspect to it. Funny ass guy.

Also, I'll just name a few other. BobSamurai is pretty dope as well, CodeProvider is you want One Piece pro reviews, ThePhone999 for reactions and JimsNerdNation for awesomeness.

sonysheep - May 3, 2014, 6:47 pm

watching kenichi A_A.....really good

Omshivam - May 3, 2014, 6:57 pm

I've only really watched ForneverWorld and Demolition D+'s videos.

Also, that playlist of [Rog and Tyrone](#) videos.
