Once you surpass 500k views then the pricing goes down to \$0.25 per 100k.

1 Million views is \$2.50

I dont get the follower pricing? 100-500 = 5\$? so even I select 100 still 5\$ or any value under 500?

Eg: 100 followers = \$1.

200 followers = \$2. and so on.

The more the followers, the more the price is negotiated.
