Thread: [Advanced Disk Cleanup! \(Hidden windows disk cleanup features\)](#)

cdriza - April 30, 2014, 8:44 am

So, what this does is just kind've cleanup more space than the original. (Its the same program, just some parameters added)

```
Code @echo off
title Disk Cleanup v2 (Windows)
cd %SystemRoot%\System32
ping localhost -n 2 >nul
color 0a
echo Disk Cleanup activated.
cmd.exe /c Cleanmgr /sageset:65535 & Cleanmgr /sagerun:65535
ping localhost -n 3 >nul
echo You can close this now, unless the disk cleanup has not launched.
pause
```

If your a scrub and don't know how to use this, follow this simple-step tutorial on how to install/use this.

Step 1. Open notepad

Step 2. Copy and paste the code from the code box.

Step 3. Click File>Save As

Step 4. File Name: diskcleanup.bat

Step 5. Save As Type: All files (*.*)

Step 6. Click Save

Step 7. It should default to wherever you save your documents, desktop, documents, my documents WHATEVER. Double click it and a disk cleanup will pop up after 1-3 seconds.

Step 8. Clean the disk!

Proof that it cleans up more files:

Awesome you write advance cleanup in a .bat script never know this is possible, going use it for my company pc's.

Hope don't get permission issue or policy problems.

cdriza - May 1, 2014, 9:14 am

No problem!

(Also, tell me if there are any problems with it i'll fix them)

cdriza - May 11, 2014, 11:56 am

BUMP

Bumped because this thing is actually useful unlike my "SuperCMD" project lel

ShockWav3 - May 15, 2014, 9:57 pm

Work's Like A Charm Thanks Bud This Came Handy..

antrikos - May 16, 2014, 2:45 am

It is really advanced for it's file size. 10 lines of code for such a program. Thanks!

nuk - May 16, 2014, 9:25 am

This is actually very nicely done! Great work OP! Hope to see more cool stuff like this from you :)
+3 from me ;)

cdriza - May 20, 2014, 8:40 pm

Because this .bat program is actually useful :D

@everyonewhoposted

Thanks for the nice comments! :P

NEW VERSION! HURRAY! :DDDDDD

New version release! 2.3

.exe version: <http://www.mediafire.com/download/w4ekoji11buf2dm/Disk+Cleanup.exe>

.bat version: <http://www.mediafire.com/download/9xrxbh4z33seull/Disk+Cleanup.bat>

Virus scan for both files:

.bat:

<https://www.virustotal.com/en/file/bb296c03f9146ded3ed672d4b66ed06cd9ce5efb3bbda48f47fcbfa2ae13bcb1/analysis/1400645038/>

.exe:

<https://www.virustotal.com/en/file/d9aa572e049f32a8b2f39200ecb07b0ee6cdfb287430f0473d8a04f4f0555117/analysis/1400645055/>

.exe detections:

False postivies, no clue what a "PSW.Generic11.AFJM" is and the
"Heuristic.BehavesLike.Win32.Suspicious-BAY.K" gets detected on all my files :>

Code:

Code @echo off

title Disk Cleanup v2 (Made by: cdriza)

echo Welcome to Cdriza's Disk Cleanup!

ping localhost -n 2 >nul

cls

echo This will successfully clean up any unused or old files.

ping localhost -n 4 >nul

cls

echo If you have payed any money for this program, refund immedietly and notify me of the website/youtube video/whatever you bought it from: cdriza@gmail.com

ping localhost -n 6 >nul

cls

SET /P ANSWER=Do you want to continue with the cleanup (Y/N)?

if /i {%ANSWER%}=={y} (goto :y)

if /i {%ANSWER%}=={yes} (goto :y)

goto :n

:y

cd %SystemRoot%\System32

ping localhost -n 2 >nul

color 0a

echo Disk Cleanup activated.

cmd.exe /c Cleanmgr /sageset:65535 & Cleanmgr /sagerun:65535

ping localhost -n 3 >nul

echo You can close this now, unless the disk cleanup has not launched.

pause

goto n

:n

echo Closing...

ping localhost -n 2 >nul

exit

This script only takes about ten, no, not even ten, like five minutes to Google, copy the text, and paste the text into a text editor and save as a batch file.

Link to it in your signature then. That's more socially acceptable than BUMPing..

YOU'RE FUCKING KIDDING ME!!1!!!

On a side note, to the higher quality members I recognize, does anyone mind if I sift through

garbage and BUMp anything of quality?
