Hey bud,

Could you please PM me a copy of this?

Also, you should probably post a virus scan.

Thankyou in advance.

Stolen application. It is owned and sold by [Provisionary here](#) for \$, and now is being given away. You're not "giving back to the community" by giving away someone else's program they worked hard on to make.

I have already contacted the owner of this program.

Get off my thread with non sense. ?

Sent to everyone.

Closing this thread now. Thanks guys! I am not giving anymore copies now.
