Thread: [Minecraft Bros - Unofficial minecraft group.](#)

bandors - May 1, 2014, 8:28 pm

I'm looking for people people to join my minecraft squad.
There are a bunch of us already, but more members are always welcome.

We will be regularly playing Minecraft games and the more people playing on a team, the more fun it is.

We are only looking for friendly people, so if you take things too seriously this group is not for you.

Don't be a tool.

Application:

Age:
Describe your attitude:
Why should we add you:

Water Aura - May 1, 2014, 8:29 pm

Hope to see new members, I'm currently in this sector from HackerCraft ;).

Really glad this is happening, can't wait to spleen some noobs :P

Cole ??? - May 1, 2014, 8:31 pm

Age: 16
Describe your attitude: Positive and enlightening.
Why should we add you: I can spice up the games and bring laughter. Also I am the king of spleef.
How about if I beat your finest speelfer I am accepted?

Vamporno - May 1, 2014, 8:32 pm

Spoiler ([Click to View](#)) Age : 14

Describe your attitude : Anti-Socal, Active, Friendly, Kind, and Relaxed.

Why should we add you : I think you should add me because I always love to play minecraft and have a blast on it. Sometimes I play with a client but on KitPvP servers. When I go on mini-games server I play vanilla with optifine. I also, love to hang out with other people and have a great time and learning the game. I want to have memories of having a blast playing with other people who have the same taste as me. I'm anti-social irl but I can be active online since they have similar stuff in common.

Humour - May 1, 2014, 8:33 pm

Age: 15

Describe your attitude: Enthusiastic, Happy, Kind, Positive.

Why should we add you: I'm experienced in the game of minecraft, i've been playing for around 2.5 years, and have expanded from survival to minigames, i play minecraft daily ranging from 3-6hrs daily, i'm a enthusiastic and fun player, i have a lot to offer to you guys, such as dedication enthusiasm, teamwork, and many other things.

Kind Regards, Jaxiar

Age:

16 soon to be 17.

Describe your attitude:

I don't get mad alot hardly anytime I play casually and very fun player and don't take stuff seriously. I normally wont get mad over stupid stuff.

Why should we add you:

I don't know alot of people that play Minecraft, I'm hoping to meet new people. Also, I run a decent populated server with another HF member, it's semi-vanilla server maybe we all can play on it? I have been playing Minecraft since 2010 and been playing it since, kinda off-topic but just noting it. My server also has a 10 player Team Speak and no one ever uses it so if we need one might as well use it. If I get in the group hopefully I can meet alot of different players. Maybe play more gamemodes listed in the OP. Need more people that play Minecraft. I'm a very mature, HQ user and will very active into the group as I spend over 4+ hours in Minecraft at least I get a little busy sometimes as I run a Garry's Mod server as well. I will basically play any Minecraft game mode or mod, maybe we can get a Nexus server only going with like Vanilla only or maybe mods like Feed the Beast or Maybe Tekkit? Just some ideas I got for the group as well. Hopefully I can be apart of this group as I been in 2 other gaming groups that didn't last long hopefully this one will hold up longer than the others did and I will be apart of one again overtime. Thanks for reading this, good luck to everyone else applying for this Minecraft group.

About Myself:

I'm 16 years old, I have been gaming since when I was 5 got my Super Nintendo and started playing the basic games like Mario, and some other fun games. My next system was the Nintendo 64 my favorite game was Turok: Rage Wars. I have always loved gaming and never gave up on it I own over 7+ gaming systems and over 200+ varies games. I been playing Minecraft since 2010 of November and never gave up, alot has changed since 2010 with Minecraft and seem to still enjoy it. I'm a very mature, fun person and don't get serious about things usually. I always want to meet new gamers from Hackforums to Minecraft or other games. Now, when I was 12-13 I started to get into graphics back then people thought mine were really good but now if you look at it, it is terrible I mean compared to other peoples work now-a-days. Then I tried Cinema 4d, now that is a confusing program I started to make really bad non-animated intro's people apparently though that were good. Pretty random about me, but just wanted to post about me.

bandors - May 1, 2014, 8:38 pm

Please put some effort into your applications.

Narrate - May 1, 2014, 8:41 pm

Spoiler ([Click to View](#)) Age: 16

Describe your attitude: Fairly well towards other players, if people are trolls I ignore them. Pretty upbeat attitude towards most things.

Why should we add you: Because I have been playing MC since beta, I have built spawns for multiple servers and have made multiple custom resource/texture packs. I've been playing minecraft for a while now, but haven't really done anything with it.

Application:

Age: Fourteen, soon to be fifteen. Very mature for my age also.

Describe your attitude: I am a very chill, mature guy! I am funny and always am down to have fun. I am very down to earth also.

Why should we add you: I am on Minecraft most of my day so first off, I am active! I love hanging out with fellow HackForum users and think it would be awesome if we could all play together! I enjoy a wide range of games from Hunger Games to Hide n seek! I think it would be wicked to get to know more about the fellow Nexus members and hang with them! I have always wanted to join the Nexus team because of the epic community but never got into LoL, it just confuses me! Although, I am trying to get into now (check my most recent thread)! I also have Ultra on, Mineplex so if we played mini-games on there you can have me as a advantage ;0 (Clearly kidding). If this is not the type of application you where looking for please pm me and I will update it asap. ?

EXTRA:I wanted to tell you my time zone is EST and by the way, I made a poem/rap to get in!

Yo Yo Yo!

It's SK8 on the mic!

Look, uh, they pay me 50 g just to breath on the mic!

They be like damnn, he a dope as guy, he know how to also make ya cry! If you sext him he be like ? zimmmm!

I am no life nurrdd who loves to play MC, talkin bout MC, MC HIT DAT BEAT! HIT MEH! shots fired ?

Edit: Just wanted to say, I made a few changed to my application! I also find it funny how after I made mine with the gold text and img of nexus, I refresh the page and others did the exact same

thing ? !

Describe your attitude: Happy guy and I make others happy. Also, I'm a "fuck it" type of guy. ?

Why should we add you: I'm a cool cunt and always happy and down for fun. ?

cunning - May 1, 2014, 8:46 pm

Age: 15 3/4

Describe your attitude: I like having a good time and making a joke out of things. But I can be serious if need be, though I like to avoid confrontation, I do use confrontation as a means to accomplish tasks in certain situations.

Why should we add you: I can be involved in whatever you want, whenever. As long as you don't brush me off; that's my one big pet peeve about people on HF. When I message you and you see it; respond. I always love hanging out with fellow HF members and having fun with them. I love being involved in the community, making memories that we will never forget. Whatever impression you've perceived of me from my posts, I can assure you I can change it. (Except if it's a good perception ?) Oh and I've always wanted a reason to hang out with the ? est member on the forum, Bandors of course.

Why should we add you: Because I'm awesome.

Herbo - May 1, 2014, 8:54 pm

Age:

15

Describe your attitude:

If you are nice to me, I will be nice back!

Also, Dont judge someone on how they look or there first impression, what if that person is having a bad day? Give them another chance!

Why should we add you:

I have been playing minecraft for over 2 years, and used to be very active on the hackercraft server.

I would love to be apart of Nexus.

I hear alot of good stuff about this group and would love to meet the members and see what all the hype is about.

Not only would I play minecraft, I would be active in the subforum and help out whenever help was needed!

If I was to make it is there anyway you can switch the game night to a day on the weekend? Most people are usually busy on weekdays.

ApexAve - May 1, 2014, 8:58 pm

Age: 17

Describe your attitude: I'm a friendly person to be around, and pretty calm when it comes to gaming and playing Minecraft. I don't judge people no matter what the case is. I just enjoy having a great time while playing with other individuals. I really don't like arguing with people and i'd rather just let it pass by rather than causing more drama.

Why should we add you: I'm not really looking into joining the group but rather playing with individuals who are respectful like most of the applicants who have posted above. It just seems fun playing with a group of 15+ people. I've played nearly every game mode on Minecraft and have quite a good knowledge on how to succeed on these game modes and I'm willing to help others within the chat/call. I'm a helpful person in general and have been staff on some of the bigger servers out there because i'm usually out there answering peoples questions when nobody else will. Lastly I like sharing my items in game with friends and respect what's theirs unlike a lot of the people that I've played with that just take things without asking.

If i'm not accepted i'd just like the chance to play with you guys some time because a lot of the people that I used to play have stopped played and I just want to play with people that share the same interest as me.

Before I write an application, is it fine if I apply with negative reputation?

I kind of just got RF'd a few hours ago and haven't had time to recover yet.

Munch - May 1, 2014, 9:01 pm

Age: 17

Describe your attitude: Chill if not grief'd

Why should we add you: I just look forward to playing and building with the members if added , I know most of the crafting and combination to create things. I'm also very active and can be reached at any time but my nap hour.

Jeff Jordan - May 1, 2014, 9:02 pm

Age: Mature

Describe your attitude: Pretty outgoing and laid back. I don't take things too seriously, especially video games. I play them for time to time.

Why should we add you: I haven't played Minecraft in a while, I'd like to play a little more sometime. Sometimes, I find myself bored, this could also give me something to do in my free time. I'll admit that I'm no pro gamer, but I do enjoy video games every so often. However, you should not add me if you're going to require me to post in the Nexus forum or have me take part of projects that never end up happening; this is just from prior experience of being in groups.

Hayden AKA Fiction

Time Zone:

GMT +10 (Straya m8)

Age:

16

Describe your attitude:

I have the kind of attitude, when playing Minecraft or any other game, that I'm serious to the point of playing the properly and not ruining it for others, but not serious to the point where I would be full try-hard at the game and get mad when someone has a joke.

I also won't be that pain in the ass kid who just does nothing to help, you know, we all know one of them.

The guy who is no where to be found when a base is to be built.

To explain what I mean, I wouldn't destroy a team-mates work for a joke, or kill them in the middle of a raid to annoy them intentionally, but I also wouldn't yell at people for not being serious enough. I mean wtf who can even play games 100% seriously, it just destroys the point imo.

Why should we add you:

Why?

Because I play games like 24/7 and although I'm a little rusty on playing minecraft (friends and I kind of moved to other games like Arma 3 and sheit), I would happily come and play whenever we are getting together.

I have played a shit load of this game, ridiculous amounts (hence my hc badge, haven't got around to the purple one yet) and I have loads of experience with possibly over 8000 hours+.

Not even an understatement either, I first got the game in 2011 and played in class every day every period and played when I got home all the way through to late 2013.

I also have a fuck load of experience in making servers, with plugins and all that kind of shit, so if you guys were to ever make one, I'd be all over it.

I also think I'm quite fun to play games with, but I guess you guys will have to confirm that for yourselves ?

Also, I am quite open to play any game that we decide would be fun, as I already own these games on steam:

Age; Old enough :)

Describe your attitude: Usually friendly, unless a user is a massive bell sprout, dedicated to gaming. Just check my steam game time over past 2 weeks ?.

Love to play casual games and have a laugh with everyone.[/size]

Why should we add you: I have a passion for games, an obsession if you will. I love to have fun, haven't played MC in years and it is time I get back in to it with all the HC/OMC being implemented. Looking to relax in the evenings and have a laugh with the cool members of HF.

Thanks for reading this appallingly written application, English literature/Grammar is not my strong point.

Hopefully you can see through it ?

Edit: changed age answer, realised I unintentionally sounded like a dick xD

Age: 16 years (4/3/1998)

Describe your attitude: I can't really describe my attitude alone because, like most people, attitude varies depending on the situation and mood. However, as long as I'm not dealing with tons of stress from school or other IRL matters, I tend to be pretty cool and laid back. I can be a little quiet when first meeting people, but once I get to know everyone I'm quite talkative and friendly. When it comes to my attitude in direction relation to Minecraft however, it all depends on the server. On Faction servers and servers similar to factions, I tend to go all hardcore in an attempt to be the best. On any other server, though, I tend to be laid back and take my time with things. In general, my attitude varies. ?

Why should we add you: Can be on frequently (Although, some days I may be overwhelmed with school work)

Good with Redstone (Except Redstone comparators)

Used to be an active Moderator on multiple servers

Started Minecraft in Beta 1.5_01 (April 2011)

Great with working in teams or by myself

I hate when people are all tense and serious I think it's better to go through things happen and with a smile on your face. I never really get mad over games or rage.

Why should we add you:

Well, I have been playing Minecraft since beta. I own a Youtube Channel that is revolved around MC (PVPing, Raids, Hunger Games, Spleef, etc...) I love MC and that's what I came to HF in the first place. I still play MC and have been on HC a lot in the past week. I know some fun servers to play on. Also, I would say I am a pretty decent PVPer. I am fun player and I am on a LOT. I am usually on from 3-8 hours on weekdays and on weekends sometimes all day. Also, I am always in for a game and to have some fun. I also have added you on skype to help you out with the server. I am very experienced with Servers and Plugins. Describe your attitude:

Laid back, social, fun loving, easy to get a long with.

Why should we add you:

I love Hack Forums and Minecraft. Both of them take up much more time than they should in my life. I thought it would be fun to start combining the two! I've been playing Minecraft since early 2011. Before that if you count playing on classic servers. During that time I've made several friends and learned a whole lot about the game itself. As for my server managing skills I'd say I'm fairly talented. In total I've ran three servers, co-owned two, and mod/adminded much more. They all were successful in one way or another. I'm also fairly good at most of the mini games you can find in Minecraft. I used to be ranked within the top ten on a hunger games server until recently, and the

first time I ever played The Walls, I won. There is a video of it somewhere on the internet that I can find if you want. The last thing I feel like I should mention is that I'm very talented at building things in Minecraft. I've built countless things that people have given me positive feedback on. I'll include a few examples in this thread.

Extra info:

I just want to thank you for letting people apply and making a Minecraft sector. Most of the groups I see aren't really suited towards people like me. It's just nice to see something that I'm not only interested in, but am good at. I also have a ton of free time right now, so I can be online most of the day.

Describe your attitude:

Ready to work, and get stuff done. I hate procrastination. Helpful, Trustworthy, Ambitious

Why should we add you:

Hello! My personal belief why you should add me to Nexus is because of the fact that i am an extremely well rounded server owner, and know what to do. Currently i've been running a server with my friend, and i have to do all the management, IE plugins, and everything like such. So i have experience in that sense, Configuring, Installing, Using Linux operating systems, setting them up for use. Now i've also coded some plugins for my server, of which are pretty big and i am willing to show you them in a server if needed, or you can hop on mine to see them. From owning a server, i've realized that the amount of effort you put in, is never enough. And essentially to reach that point where you'd hit enough effort in, is when you stop the server. There is always more you can add to help players, yourself, and such. The main idea is, that i personally have almost experienced everything with MC, been playing since early beta, and have played almost every type of server and owned quite a couple. I am also extremely active, not only here on Hf, but as well on Mc. i follow all updates and snapshots. I will be able to help build, manage and even setup a server if needed to for the mini games that'll be held. I have a 64gb dedi that i can use to directly setup a server for the minigames if needed, i'll just need about 10 mins to set it up

Thank you for reading my application! ?

I believe you should add me to Nexus for three reasons: First of all I just want to have a good time and get along with a group of people and help create a tight group of members. I am easy to get along with and hate dealing with any sort of drama. Secondly I am an experienced Minecraft who has been playing since alpha and currently runs my own server. So I not only be able to just play with members of the group but I would also be able to offer my knowledge to anyone who is in need of it. Lastly I am extremely active and will do whatever it takes to help the community. I will go above and beyond the call of duty to help this community.

Spoiler ([Click to View](#))

Age: 16 Years Old. 17 in October.

Describe Your Attitude: Pretty chill person overall, I'm very humorous and will do anything to make others laugh and have fun. I tend to overthink things, but that isn't always a bad thing. I'm pretty easily entertained and play for fun rather than being overly competitive.

Why Should We Add You?: Minecraft used to be quite an obsession of mine, me and a few friends from school spent all last summer playing Survival Games and Skyblock. Every day after school we also got on a played for a few hours. However, two of my friends sold their PC's and it wasn't as fun with just me and one other friend. We had a little survival server for a while but lost interest after a month or so.

I think I would make a good addition to the group because I desperately need people to have fun on this game with again because I honestly have nothing better to do in my spare time. I love Hunger Games and Spleef, but I find I can only enjoy it when playing with others.

Also, I am more than capable of following orders and working with a team, but for instance in Hunger Games I like being able to stratigize as well. I tend to be well spoken and polite, but that doesn't mean I don't like fooling around sometimes ;). I think me being apart of the group would allow a fun enjoyable experience for me and the other members.

A Little Bit About Myself: Alot was mentioned before, but here I'm going to say some things about me. I have been gaming ever since I got a gameboy advance for my 6th birthday, and then a gamecube the christmas it came out. I like all sorts of games other than Minecraft such as Counter Strike, Battlefield, NHL 14, Skate, GTA, and many more. I'm 16 years old, but don't be supriised if I sound younger. I don't really look or sound like I'm 16 but whatever, not much I can do about that! I hope you take this application into consideration. Have a nice day! ?

Describe your attitude:

I am a very cool, chill dude once you get to know me. I tend to think very funny and humorous jokes(not regular funny jokes, very insane.)

Why should we add you:

I have been playing minecraft since the alpha ages. I know everything ranging from TNT to Dirt Blocks. I can play any minigame you want and beat you at it. Parkour, spleef, maze, hg, you name it. Me and my cousin usually play minecraft everyday. I used to own one cracked server and a purchased, 2GB RAM server. Everything was working great actually. Donations, advertising, and basically everything. But I had to cancel it due to IRL problems. We usually play Block Hunt which is insanely fun. My new computer I built should be arriving soon. That means more minecraft time and faster chunk loading speed. I don't really know how to build redstone creations as I think that is not that necessary. However, I could check out some youtube vids for you and do it. I would personally rate my building skills 8.3 on a scale of 1/10. The reason why I chose 7 is because I don't build huge creations like temples or shit like that. I could build Notch(Omniscient) faces though. ?

Minecraft Skills:

Building: 7/10 (Semi-Intermediate Builder, expert at dirt houses and traps)

Redstone: 2/10 (Can build you a repeating arrow shooter)

Leadership: 8/10 (Can lead you victorious in factions and block hunt)

Workmanship: 9.5/10 (I get you stuff done on time 90% of the time. Hitman jobs are an exception)

Swag: 10/10 (You don't need minecraft when you have swag)

My age: 16

My attitude: I consider myself to be respectful and helpful under most circumstances. I am very competitive, and although I love to win, I am aware that I can't always come out on top, and respect everybody who is better than me at anything. I'm pretty collected, and do my best to brighten up anybody's day, whether it be by making them laugh, or by trying to solve their problem. I'm optimistic, and above all else, I'm not totally boring to be around.

Why you should add me: I do my best to help everybody I'm around have a good time, and if I can't, I'll keep trying, no matter what it takes. I'm a pretty alright at PVP, but I'm great with the actual mechanics of the game, which gives me an advantage in many situations. Most importantly, I'm a good sport, and can accept defeat (as long as I'm not up against cheaters. Then, the gloves come off). Finally, I can represent Nexus with pride and dignity, in-game and out of the game.

Thanks a ton for taking the time to read my application, and I wish the best of luck to all applicants.

Describe your attitude: Pretty relaxed, I can get competitive during competition and I am known to be a bit comedic.

Why should we add you: I'm dedicated to groups I'm in. I enjoy working in communities.

Age: Won't Specify. (Don't accept my request to join, but i won't be doxed.)

Describe your attitude: I'm a very cool kind of guy, i help a lot of people and like doing so (like seriously)! I just love to help everyone out, and keep on learning to expand my knowledge! And i am always up for a challenge!

Why should we add you: I personally love MineCraft a Lot, a few friends of mine told me about it, and i saw it and was totally up for it! I have been playing it for a long time and i am not a master at but i play for fun and to have fun with others.

I am a very active member and would be hugely appreciated to join Nexus's Minecraft Sector.

Thanks for reading my application hope you consider me for this group/sector.

General Zoddddd - May 5, 2014, 10:53 am

Spoiler ([Click to View](#)) Age: 17

Describe your attitude: I am well mannered and usually talk only when necessary, towards games I play very competitively but don't tend to rage or feel any negativity to players that I lose to. I respect matches and take pride in my gaming and take it seriously when I need to, however most of the time that is not the case and I can be very chill and fun to hang around with. I can make friends easily and respect everyone I meet whether they are younger, or older than me. I think that's the most qualifying factor about me.

Why should we add you: I think you should add me into the Nexus Minecraft Sector because, I have worked with many different servers and even made a couple of my own. However I enjoy playing on servers much more because I am very competitive as I have already stated in the 'Describe your attitude' section of this application.

I've been playing Minecraft since early Beta and have never failed to stop playing it. I have surely taken a few breaks but never anything longer than 2 months. Because of this I'm very good at the game and whenever I play Mini-games (My favorite being Hunger Games) I win a lot of the times because of my experience and tricks I have learnt over the years. I intend to help us to become victorious in our games by being a great team player and passing on my knowledge of the game to others that may find it helpful. My overall specialty is Hunger Games, I know various tactics of surviving for a very long time and even winning, for example when you see a name, you stalk them for a little bit of time and then strike when they least expect it. This is very enjoyable for me and I love the thrill of being on the hunt :)

Additional Information: I have been a PC gamer for an amazing amount of time and even longer as a general gamer, thanks to that I have a PC Rig that is very good for gaming.

This has been Letter, I hope you consider me for joining your group as I have put great effort into creating this application. I wont disappoint.

-Yours sincerely

Cyber Saint - May 5, 2014, 11:42 am

Greetings, this is my application to Nexus. Work and thought was put into this application so please be ever so kind to consider it.

Spoiler ([Click to View](#))

An Introduction:

Hello there, my name is 'Cyber Saint' and I have been a member of this community since the beginning of 2014. As I began to make friends in the community I noticed many of my friends were joining this group, Nexus, and I looked around the forums and realized that I liked the way Nexus was. To me it honestly seemed like a very friendly and well-developed group in my eyes. From that point I've wanted to be in the group for quite a while now, and I will attempt to pursue this goal and I hope to achieve it. In and outside of Hack Forums, I am a very relaxed and friendly guy. I enjoy discussing all sorts of subjects and have in depth conversations whether it is over the internet or in

real life. I have always been a very fun person wants you get to know me and I am open to a variety of fun discussions. I know groups aren't usually the easiest to get into, but I know if I try with this application that it is possibly that the group leaders will find it in their hearts to accept me and give me a chance to show them that I am worthy of being in the Nexus group.

Age:

On the date of March 20, 2014 I turned 16 years of age. I do consider myself to be the kind of person that acts a bit older, however.

Describe your attitude:

I'd say I have a rather different attitude than many people. I have the type of attitude that is give everyone a chance and be relaxed at all times. Even when I get harassed, through the internet, in a game of Minecraft or LoL I tend to stay chill and relaxed as I realize that it will all be over and I tend to just enjoy myself like the game is supposed to be enjoyed. I know that there is always going to be people that are there to bash you down, but there are people around that are there to bring you up, I happen to be one of them. As implied, I am a very calm person as well as a very friendly person. I do believe in second chances in life, and I do believe that everyone deserves to be treated with respect and care. I have been like this my whole life and I don't plan on changing this anytime soon. I see no reason in hating on people, either. I believe in the power of being friendly, because if you realize - being friendly is usually a lot easier than being cruel and disrespectful.

Why should we add you:

I think I should be added into Nexus because I would be a great addition to the group. I would bring a lot of skill in the game of Minecraft to the group as well and knowledge in the game. I would also bring general knowledge to the group, at all times. I enjoy being a friendly person and I also enjoy being a very kind person to everyone in and outside of the group. I'm always happy to have an open ear and advice to anybody in the group whether it is about Minecraft or just simply life. Minecraft has been a passion of mine since I started my interest in computers. I originally started playing Minecraft a while ago to develop plugins for the game, and now I enjoy the game by playing for the joy of it. It would be really cool to be in a group that has a sector oriented around Minecraft. I have played LoL in the past which I understand is a really fun game from personal experience, and if I didn't have this opportunity I would apply for that. I am passionate and would be a dedicated member to the group of Nexus and would contribute and go to great ends to be a respectful, pleasing and nice member of the group to everyone amongst it and beyond it.

Conclusion:

Now that you've reviewed my application to join the group Nexus, I hope you will consider inviting me to join the group. Like stated, I feel I would be a great and friendly addition to the group. It would be an opportunity for me to learn a lot from other members in the group as well as have fun while doing so, and hopefully making even more friends while still being in the same group as friends that have already been accepted into the group.

Thank you for your time.

Describe your attitude: I am pretty relaxed, but I can be extremely competitive. I enjoy winning and like to make jokes and have fun. I know I can't always win, but there's always a way to enjoy yourself and allow others to have fun too. I like to see others having fun too.

Why should we add you: I am very dedicated to every group I've ever been in. I love Minecraft and I've played since around 1.5 beta. I always loved playing servers with people and if I have nobody to play with, it's just not as fun. It's always fun to get together with other people and enjoy playing together. I enjoy playing towny, factions, and minigames servers. I'm not the best builder, but I can try. If anything I'd bring someone who loves the game and loves playing it with other people.

Tell me, how do you "expand respect"? Elaborate. I think you mean they're expanding their gaming areas to attempt to make their group's position higher than other groups on the group hierarchy.

I can't wait to see what happens to this group. ?

It isn't about any "group hierarchy," it's about having fun.

After awhile, the same concept gets old and change comes.

I could definitely bring some laughter and conversation to the group as well. I have basic server management knowledge, and am great at designing in Minecraft.

The main reason why you should accept me is so I can meet new players, and have fun.

Describe your attitude:

I'm very easy to get along with. I enjoy communicating with just about anyone. If I can assist anyone in any way, I will. I'm pretty laid back also.

Why should we add you:

I've played Minecraft since the early alpha stages, so I have a pretty vast knowledge about anything Minecraft. I really enjoy this game and it has become the hobby I spend a lot of my free time on. I have experience in almost all aspects of Minecraft, from simple playing to server ownership. I've ran my own servers in the past so I have plenty of experience with plugins, community management, and getting servers on their feet, if you all ever needed assistance in those fields. I've been trusted with Administrator positions on a few larger servers which I recently resigned from after years of service, so I could use something to do with my time. I have a positive attitude at almost all times, so there's no worry about having conflicts between members. I'm very active on Minecraft so I have plenty of time to dedicate to this group and their events. While I may not be the best at building, I give the best effort I can and strive to get better every time I make a creation. I'm also somewhat good at most minigames that servers offer! Although it may not mean much to a this sector, I'm also decent at graphic design, should the need for those ever arise. All in all, this group seems like a good fit for me since as far as I can tell, it's composed of dedicated, mature, and knowledgeable members of the Minecraft community. It'd be an honor to be a part of it.

Other Information:

It's not often that I see a group that offers an opportunity to join a sector that I believe I'd thoroughly enjoy. Thank you for offering a Minecraft sector and for reading over my application.

I am calm, friendly, I don't rage and I am friends with everyone. I don't get mad, i only get mad if people are acting like assholes.

Why should we add you:

Well, i used to play a lot of Minecraft, i still do but not as much as i used to. Since, it's not that funny to play Minecraft alone, in a group, it's much more fun.

I started minecraft back in 1.1 on server called Craftsnow. Played there for few years, earned mod status, but sadly it got shut down. (Will be back!)

After that, i really didn't play that much Minecraft, if i did, it was on Hypixel's server.

Would really like to get back more into Minecraft.

I am friendly towards everyone and don't ever rage. I mean ever, and of course It's always nice to meet new faces.

If anyone would be interested in setting up a server /plugins etc, i can help with that also for example/

Thanks.?

Vamporno - May 8, 2014, 4:15 pm

Age: I'm currently 14 and turning 15 in a couple of months.

Describe your attitude: I'm the type of person who is relaxed and enjoy playing with other members.

Why should we add you: I think that I should be accepted to Nexus minecraft section because I enjoy playing with other people and like to have fun. I also, like to play mini-games in minecraft but also enjoy faction servers since it a bit competitive and I love playing competitive. I also, enjoy building for fun I might not be the best builder but I still enjoy what I create and the feeling I have when I built something from my own imagination.

illuminati? - May 8, 2014, 5:19 pm

Age: 18 (almost 19)

Describe your attitude: Positive, Happy, Enthusiastic, Friendly.

Why should we add you: Well I've been playing minecraft for a decent amount of time now, and I love playing survival. I have a lot of experience playing Survival/Hunger Games, it's what I prefer seeing how I'm not into the whole Building crazy stuff scene. I play minecraft quite frequently on my xbox (at least once every other day, for hours at a time). And I need some new people to play minecraft with on pc (that's why I play it on xbox more than I do on Pc). When I am playing with people I tend to play it for 6+ hours, because I get right into it :).

Describe your attitude: I find myself to come across as professional and quite mature. I tend to keep to myself; however I do indeed know how to have a fun time. My sense of humor is rather mature, and I do-not enjoy childish behavior nor do I tolerate immaturity. When it comes down to it, I am all business. However, I am also quite soft. I am easily able to relate to people and put aside differences we may hold.

Why should we add you: This is my kind of group. Throughout my MineCraft years I have always enjoyed new experiences and playing the game with friends. I am knowledgeable, experienced, and relatively good at the game.

Age:

14, don't let this fool you though, I'm extremely mature for my age.

Describe your attitude:

I'm extremely friendly if the person I'm talking to is friendly or at least nice back. But I don't tolerate anyone harassing or attacking any friend of mine, and in that case I get defensive of them. I can also be rude/mean without knowing it, so if it does happen, I apologize in extreme advance for it. I'm flexible, and I know when I'm wrong, or I can at least figure it out.

I do hate however, when people insist that they're right when I have provided legitimate proof that they're wrong, but they completely ignore me. (Does not apply to religious arguments.)

Why should we add you:

I know how to play by the rules and I know how to make playing small games with a group like this one fun. I would also like to get more known around Hackforums, etc. I am also an experienced Minecraft player, and would like to have fun with other players that will actually play the game correctly (instead of goofing around when we're in the middle of it.) so that we can all have a more enjoyable experience with any minigames that the group decides on playing.

Extras:

I'm in the United States, Texas to be as exact as I'd like. So my schedule will be based on that timezone. I will also only be on the computer after 3:30 P.M. up until around 10 P.M. each day, as I have school. I am also very good with plugins and can setup maps.

Describe your attitude:

I am an all around friendly guy. I am very easy going, and easy to get along with. I have ran several gaming communities so I am used to people of all aspects. I can be an asshole when pushed to that point but honestly it is difficult to get me there.

Why should we add you:

I have been playing Minecraft since 2010. I currently run a Medieval Minecraft server for my Gaming Community. I have ran numerous private servers of this for my friends, and myself. And have been upper staff on many other servers. My overall knowledge of plugins itself could be better, but I know a little bit. Right now I am honestly only available for around 3 hours a day. I currently am working a fulltime job, while running 3 different Garry's Mod server(currently running TTT, Jailbreak, and Murder), and a Minecraft server of my own.

Additional Information:

As you can obviously tell by me applying for this sector I am a fairly avid gamer. I have been gaming for most of my life. Some of my favorite games are old school turn based rpg games such as Legend of Dagoon, Chrono Cross, and almost of FF games. I am that much into the whole FPS scene. I do run 3 gmod servers, and used to run a CS:GO server but it is ehh to me.

Age: 14 but I find myself very mature.

Describe your attitude:

Why should we add you: Well i've owned a concurrent minecraft server for about a year or two. Once I started the game I was hooked. I had a server called cheesecraft, which closed unfortunately due to insufficient donations. But few months later. I get back up on my feet and begin a brand new server, that has been running ever since. As a reference take a look at

<http://replacethiswithatinyurl.com/lowah3n> I also had OmfgsCraft which was right after so basically around the same timeframe. Kind of the same server just different name, as a reference to that you can check here, <http://replacethiswithatinyurl.com/q9wt3jc>. Now to my successful server (KitPvPcc) is custom-coded, we have 1337 slots. Many features. If you want info on that visit our site, <http://www.kitpvpcc.net/> my server ip is: KitPvPcc.com | Hopefully in the summer I will be starting a

hub server with a good friend of mine who is a very talented coder. I also code. But not as good as him. I've coded a plugin to prevent profanity on servers that would want to prohibit such. If you want to check it out, please click here <http://dev.bukkit.org/bukkit-plugins/ezswear/> I have been very active in the HF community, such as offering HF rank/kits on my server if you prove you are a HF member. I have honestly put alot of time into playing Minecraft, if it's trolling with friends over skype or building a new server spawn. We have a blast. I have a forums for my server and the community is great, some are turned out to become really good friends of mine <http://kitpvpcc.enjin.com/> As I mentioned a hub server earlier, we have the funds and the means to start it, and it's long overdue, really stoked for it. I am really clever. From Photoshop to Sony Vegas. I like to be very innovated with what I do. I really have accomplished alot just by playing minecraft, it taught me to be creative. Such as practicing PhotoShop for gfx regarding my server, or learning how to properly edit videos for my youtube channel. Or how to speak out to my server community. I always love to help out other people with servers. Believe me when I say this, I helped oh so many people from setting up their servers to helping build spawns. I have brought alot of people into the world of Minecraft and I have gotten roughly 90% to get addicted! I have fun by playing SkyBlock with friends over skype, sometimes recording or streaming it over twitch. If your wondering, my Twitch is http://twitch.tv/ez_dan/ I have also done youtube videos of minigames like Cops and Robbers. I love to help fix problems, when a friend needs help in minecraft regarding server management, someone advertising on their server/stealing players, or dealing with hack threats. I'm there to lend a helping hand.

I will PM pictures of my builds if it is needed.

Veros - May 18, 2014, 3:06 pm

Age?

I turned 16 years old back in the beginning of May.

Describe your attitude.

I'm generally a pretty nice, chill person and I'm described to have a nice personality as well. I will do anything to help others and enjoy working with people and strive to do my best in order to achieve success. I tend to open up to people a lot more if I talk to them a lot.

Why should we add you?

I've been an active part of the Minecraft community for about 4 years now. My great obsession for Minecraft started back in the summer of 2010 when my friends and I discovered the Minecraft by watching a few YouTubers. We thought the game looked interesting so we decided to give it a go, and now I'm here.

In my time, I've created multiple servers for both myself and other people as well. I specialize in building, as well as PvP in the Minecraft sub-genre section. I have tons of experience at pretty much anything that involved Minecraft.

To sum things up here, I would love to have a group of people to have fun with and enjoy the game again. I can take orders very well and also make a great leader and know great strategies when it comes to that. Whether it's Survival Games, survival or just some mini games, I'll do whatever it takes to assure we all have fun.

A Little Bit About Myself.

I've been a gamer for almost 10 years now, excluding the little games I played before. I've always had a passion for this hobby and never seemed to lose it. Currently as of now, my favorite types of games include Minecraft, MMOs and RPGs, however, I was always a great fan of FPS games, as well as simulators. I like to play Minecraft whenever I have time to and spend hours on end doing things such as building, playing survival games, mini games and PvP.

Age: 17

Describe your attitude:

Always happy no matter what the situation is.

Loved to get trolled because that is what I think is funny even if I get pranked or trolled

Just love to have fun and play games when I get home from work/school.

Why should we add you:

I have never applied to any group, because I feel that I didn't fit in to any of the groups because I

just like to play games, and interact with other people because that is my hobby, and what I love to do. The only award I have on HF is the Hackercraft award, and after I got mine I spend a week selling awards because I was making money while having fun. Shows my dedication to the sector if I were to be recruited. I should also mention that I run a gaming community with 2500 members with servers/game divisions spanning across 8 different games. With servers for Minecraft, BF4, Garry's Mod, and aIW4. Currently on the first page of enjin. Interacting, and playing together is what I do, and I would love to do it with the people of Nexus.

EXTRA INFO I own a TS server that would be open to all members of Nexus for our needs if skype gets too crazy.

Age: Turning 16 Soon!

Describe your attitude: I'm a shy kind of guy but once I get to know someone or a group I gradually get used to it and start having more fun and better chats!

Why should we add you: I've been playing Minecraft for 3+ years now. I play a lot of Vanilla and also a lot of server side things. I really would like to join so I can chill with the other members and also be able to enjoy minecraft a little bit more. I'm fun to be around and pretty good at the game so I wont be annoying you on how to place blocks.

Just have a shot, if you're interested in playing MC with us dods then you should give it a shot, I'm sure Bandors would prefer a MC player over a dude that doesn't know what MC is but has a massive epenis.

No guarantees, but I think Bandors might prefer me and my moderately sized e-penis.

Age: 18

Describe your attitude: I am friendly person, I love having fun and playing with others in the Minecraft community.

Why should we add you: I think I should be added to the group because I have been playing Minecraft for 1.5 years now. I love playing with other members in the Minecraft community. I personally like hunger games and other mini games. I also run Minecraft servers that members could play or build on if they want to. I want to share Minecraft tips and tricks with other members and hopefully learn something else from the groups members. I could bring a lot of fun and energy to the table in this group!

Thank you for reading my application.

Age: 16 years

Describe your attitude: I am a very chill guy to talk to, a semi-sociopath so I will not "rage quit" or shit, and just the type of guy that is easy to get along with. I have lots of friends both online and offline.

Why should we add you: I enjoy playing minecraft. I play on xbox more than PC, but I play actively on both. I am not overly skilled, but I have had minecraft on various accounts premium since beta. I enjoy helping out, and like to do pretty much anything. Willing to help with tedious tasks as well. Also on the internet all the time, on the site all the time and am super active, so you will always be able to reach me. I can actively participate in the subforums and the servers.

Thanks for reading ?

I'm posting this here my response as Bandors will more likely see it in this thread than my response to the original PM, which would be among many of the PMs that he gets.

I have been inactive the past week, and I'm hoping I didn't miss out on anything that would inhibit my ability to join Nexus.

Vaxorr - May 26, 2014, 2:28 am

Age:14

Describe your attitude: I'm a positive person, I love helping people as much as I can, in my spare time I usually build and expand and try to make perfect builds, besides that I am trusted and loyal.

Why should we add you: I'm a Minecraft addict, I usually love to mine and build, I'm not that PvP guy, also I play on HackerCraft which is one of my favourite servers and I'm very active at its subforum.

on the other hand, I always wanted to join a group like Nexus.

Thanks for giving me the opportunity and thanks for reading

Wait so applications were accepted and denied? Bandors didn't close the thread

r1seN- - May 26, 2014, 2:14 pm

Age: I'm fifteen years old.

Describe your attitude: I find myself as a very chill person. I like to share my expertise with others, and I like to play video games. I'm a nice person who won't rage at you if you're bad at a game, or not doing well in different fields. Most people like to play with me because I'm competitive, but I don't rage.

Why should we add you: You should add me because I have a lot of knowledge in Minecraft, and I want to share it with others. I know how to build terrific things, I have owned 3 servers, and made over \$1k a month from them. I've been staff on many servers, so I know how to manage a server well. I'm great at PvP and I'm just a fun Minecraft player :3

If you're not convinced, I've been playing this game since 2011, for 3 years, and I'm still playing this game to this date. Most people know I love Minecraft, and I want to find out more people that play this game, that's why I want to join Nexus.

~ Yours truly, Mr. Donuts

I am still accepting applications for the MC sector.

Generation - May 31, 2014, 11:54 pm

Age: I'm Seventeen years old.

Describe your attitude: My attitude will be very high towards the group.

Why should we add you: You should add me to the Nexus minecraft sector because I will come to every meeting and be very loyal to all members. I will also help everyone to the best of my ability with their needs and contribute to Nexus a lot. I will make Nexus proud with high quality posts and no low quality spamming type of posts and will definitely be a high quality member.

Also, I have a lot of knowledge about Minecraft and I am good at it and I know what I'm doing when I play.

Describe your attitude:

Fun, ready to make friends, good friend.

Why should we add you:

I got really bored with playing on my own and i have played wit my friends a couple times so i know how fun it is.

Nothing much to say really, hope i get in so i can have some fun and meet some new hf users!

Patrick Star - June 10, 2014, 3:17 pm

Patrick Star's Application Age: I'm 22 years old.

Describe your attitude: I am a very relaxed individual and love to have fun. I also have a professional side of me where I can take care of business and I understand when to use each side.

Why should we add you: I'm always looking for some members to play Minecraft with; especially those who make the game fun and entertaining. I've been running a server for the past 6 months and I've learned a lot about Minecraft from it. I feel as though I would be a great asset to the Minecraft sector because I am a very active player and just enjoy having fun with other members who are out there to do the same.
