How to get it:

PM me asking me for the design.

Please don't forget to say thanks if you like my design!

I hate all those iOS7/Win8/other flat designs, but yours is really really awesome!

Thanks for sharing! ?

Very nice , keep up the good work.

Maybe you could try using these colors next time ; <http://flatuicolors.com/> - they always make my webdesigns look fresh

Rackzen - June 7, 2014, 3:20 am

Very nice, but if I were you, I would try the icons from Dodol Launcher (Android), you will get everything you need on it.
