Thread: [How to Decompile c++/c , Delphi,Vb6,VB.Net, or java programs](#)

Jboomerz - May 15, 2010, 12:01 pm

Here's how to decompile executables compiled in c++/c, Delphi, vb6, Java, and vb.net. This can be very useful if you loose the original source code's of your work but still have the compiled .exe. This might not work with all files.

C Decompiler

[img]http://i172.photobucket.com/albums/w32/shmerlog/11.jpg[/img]

Instructions

- 1.File>open>(your compiled c .exe file)
- 2.File>decompile>

Download Link

http://download.cnet.com/C-Decompiler/3000-2218_4-10969943.html

Vb Decompiler lite (vb6)

[img]http://i172.photobucket.com/albums/w32/shmerlog/22.jpg[/img]

Instructions

- 1.Select .exe
- 2.decompile (same shit as the last one)

Download Link

<http://www.vb-decompiler.org/>

Delphi and C++ builder decompiler

[img]http://i172.photobucket.com/albums/w32/shmerlog/334.jpg[/img]

Instructions

- 1.Select either C++ or delphi
2. Decompile

Download Link

<http://www.softpedia.com/get/Programming/Debuggers-Decompilers-Dissassemblers/Delphi-and-C-Build-Compiler-Builder-Decompiler.shtml>

VbReformer(vb.net)

[img]http://i172.photobucket.com/albums/w32/shmerlog/44.jpg[/img]

Instructions

1. Open vb.net .exe thats it.

Download Link

<http://www.mediafire.com/?tnlymzjimn0>

JD-gui 0.3.2

[img]http://java.decompiler.free.fr/sites/default/themes/jd/getimage.php?p=../screenshots/screenshot14.gif[/img]

Download Link

<http://java.decompiler.free.fr/>

Hope this helps people. ?

iGaz - May 15, 2010, 12:36 pm

Does this actually work? I thought that it wasn't possible to decompile it :/

-XxxV1r0j4NxxX- - May 15, 2010, 5:32 pm

does this work with delphi 7.2 files?

its a trojan the link for the delphi/c++ decompiler is a trojan not sure about the other ones though i suggest scanning it with novirusthanks before installing it

Jboomerz - May 16, 2010, 7:35 am

Bump

I decompiled a vb6 executable, with this comon guys 130 views and only 2 comments. Try it yourself it may or may not work.

iGaz - May 16, 2010, 10:14 am

Well, it didn't work for me... tried with the C++/Delphi one

Salad - May 16, 2010, 10:34 am

.Net one didn't work on my own apps...

VorTeX32 - May 16, 2010, 10:43 am

i tryed vb6 one its work... but.. you cant edit it or its corrupt it , so.. thats suck o.o

Daniel Sewell - May 16, 2010, 11:45 am

The C++ one probably doesn't work too well due to the fact that each compiler has a different method of making the end result.

EricR - October 18, 2010, 6:17 pm

Imfao c++ is a plugin

LOL haha just kidding , No man its a language you code in its not a program

Quote:ok, i got visual basic 2008 and i got some expirients but i need c++ to make hacks righth? so i need c++ and my question is!?!? where i dontload it? and is c++ a own program or a update for vb08?

nak15 - October 18, 2010, 8:58 pm

LOL haha just kidding , No man its a language you code in its not a program

what was the point of your post 5 months later?

eXpLoD - *October 19, 2010, 6:03 am*

The VB Decompiler Lite only decompiles older versions like vb6..the newer versions built in vb2008 or sooner just typing some junk codes and then it says "The fat code only in the Pro version"

NxD - *October 19, 2010, 10:22 am*

lol, i think this will never work / be retarded

nickjonnes - *November 22, 2010, 1:28 am*

nice post

thanks for you help you should add reflector to the list and esa they both are great programs

also i would recommen paid to be on the list

cheers nick

Possible infected or false detection.

autorunman22 - February 10, 2011, 11:54 pm

Im having an extremely laugh at the sig of post #8 and #9. Hahahaha! Wtf! Omg can't breathe

the wOw - March 24, 2011, 2:11 pm

Very detailed, thank you for posting :].

Grrr...Trolls - July 7, 2011, 12:43 am

Actually this is all useless if the EXE is UPX'd and then Perverted :P

<http://www.upload-yours.com/download/7/tools.rar.html> (UPX/Code Pervtor)

Old tools, still work to this day :) Oh BTW, I did not infect it in any way. Turn your AV off, its a hacking tool false positive :P I just re-rar'd and re-uploaded :)

Hope some find this useful :)

Oh and thanks to the OP, I actually need these decompilers, I think I found some non-upx/perverted exe :D

aNet1976 - September 27, 2018, 9:58 am

hay manera de pasar el codigo assembler a codigo visual basic 6

les comento descargue el vb_descompiler lite 11, y trabaja los objetos y pude ver mis objetos nuevamente (es un programa viejo que tenia para unos clientes y lo perdi y necesito hacerle unas modificaciones porque cambiaron algunas tasas de impuesto y algunos manejos de formulas y debo corregir.. ? y no quiero volver a tipear todo el programa), pero me pide una actualizacion a PRO y cuesta 599\$, baje un crack y no se como usarlo, ya que me trae un form.exe y guid.exe y un archivo de seriales.. el problema es que no se donde usarlo porque cuando le digo actualizar me lleva solo a la pagina de compra..
