Thread: [\[Sales Assistance\] OPEN TO ALL - Increase sales easy with no work!](#)

Yin - May 14, 2010, 5:30 pm

I'll be offering help with your sales. I've done this for quite a few people before, worked very well (if you want, look at Warbot, look at DynastyCrypt, the crypter R3stL3SS and I worked on, but I forgot what it was called).

NOTE -

I did this for L33Ts/UB3Rs only, but I decided to move it to everyone.

Links to the previous work too -

What I'll do is:

Create your sales thread, make it look professional. For examples, look at the Warbot thread, or at my Kleaner thread. If you want an even greater example, the BlackShades NET thread is mine (I designed it).

Offer full support via MSN, and PM here on HF.

Advertise in a non-annoying way and that will get people to be interested. You'll definitely increase your sales, it's all about appealing to the customer.

So the general options, simplified -

"1) I can make you a sales thread, and you post it, and go your own ways. Not really effective, just makes it look good.

2) I make the thread, and I assist with sales, and take a portion (sometimes no), depending on what it is. Then, I assist with the program (if it is one), such as give support, etc. If it's just an account, I'll just do my best to sell it. We can work something out if it's a service, such as common Watson

account service things.

3) I can post a Skype advertisement for you that says is selling a here and link. "

I will sell anything you've got, from eBooks to shells, to a game card. The sky's the limit, but no credit card fraud will be sold. This includes VCCs, and VBAs. Post here if you want the service, or you can PM me and we'll get started.

Or add me on Skype - (pm for skype name)

Do note: I can take your payments via PayPal or LR if you don't offer one of those, then use an exchanger to give you your rate.

Successful stories -

(May 14, 2010 08:55 PM)camgaertner Wrote: [\[CITE\]](#) What if its me and we're selling porn?
Not interested in selling porn. It's just a waste of time, unless it's like LiveJasmins (people buy those).

Boris - May 14, 2010, 8:58 pm

Will you sell physical items also Yin, or just the regular stuff?

Kotei - May 14, 2010, 9:02 pm

Yin if I were to complete this and put it up for sale...

A: How much could it sell for

B: Would you want a % of total sales, % per sale, or a random amount.

C: Would you want payment before or after sales

D: How much would you want

Yin - May 14, 2010, 9:02 pm

Depends on the physical. Xypher, what's "this and put it up for sale"? You never put anything.

Okay. Well back to work on it.

Is this service free, or whats the catch?

This seems to good to be true.

Anyways, I have a Crypter that I will be releasing hopefully within the next week or so, just fixing some final bugs.

Would you be able to help me out with a Sales Thread Template, that I can throw up when the programs ready to be released?

Thanks for your cooperation.

I don't understand exactly what your service is. Are you going to advertise our thread on HF or are you going to take over a portion of the sales and take a commission?

Yin - July 1, 2010, 8:49 pm

Depends, really. There's two/three options.

1) I can make you a sales thread, and you post it, and go your own ways. Not really effective, just makes it look good.

2) I make the thread, and I assist with sales, and take a portion (sometimes no), depending on what it is. Then, I assist with the program (if it is one), such as give support, etc. If it's just an account, I'll just do my best to sell it. We can work something out if it's a service, such as common Watson account service things.

3) I can post a MSN advertisement for you that says is selling a here and link.

Will i am talking about my E-book

Thread Link:-<https://hackforums.net/showthread.php?tid=587929>

Well i thought my v2.00 is far better than v1.00 but luck is just reversed.

My v1.00 was good and limited copies were sold out very very quickly.

But this v2.00 is just stuck.

Other thing is please ban Un-Official Reviews as rippers get away with there sales by doing copy paste and legit E-books are left out.

WHY??

Pm me what you think and what you suggest :)

Ne0™ - August 10, 2010, 9:09 am
