The layout is blank, but it does make it easy to read.

Most of the methods are well-known methods, but some of them are new for me.

You will definitely get some slaves with this ebook.

Overall, a 3/5 in my opinion. (May 4, 2014 11:26 AM)Deckerz Wrote: [\[CITE\]](#) I have received a vouch copy.

Honestly the e-book if you are good at it and are willing to lose say 10 minutes of your life to get half decent amount of slaves. This e-book is great for you. Its very bland and IMO the text is a bit too big but still is easy to read and the steps arent very complicated. Great buy for \$5.

Overall rating: 7.5/10

Okay. First, thank you for the vouch copy. The e-book has a total of 2 spreading methods. The first method is the best out of two. Personally, i haven't never tried to use this method to spread before and i definitely gonna try it out. Lastly, If you do it rite, It can be promised that it's gonna me autopilot which means you don't have to do shit but still getting slaves. Over all, i rate it 8.5 :) GLWS bro.
