Survey Locker Service

What is a survey locker?:

A survey locker is a program that once ran, will lock the users computer until the user enters a specific code. This code is found on a PPD site which will have the download to the Txt file containing the unlock code, thus giving you money every time they download it. Perfect for all the slaves on your RAT.

This service Includes:

- ? Unique Build - Custom coded by me.
- ? 1/32 Scan.
- ? Choice between what GUI you want the user to see.
- ? Coded in VB.NET.
- ? Runs on start-up with persistence.
- ? Disables: Task Manager, Command Prompt, Registry editor, Explorer
- ? When survey is complete and the computer is unlocked, it auto deletes itself from the system leaving no traces.
- ? Auto detects if the user is trying to use an antivirus, and detects if the user is on a page besides the survey and its branches.
- ? Custom name and icon of the Locker, as well as a custom unlock code.
- ? Simply Give me the PPD download link, and start infecting.

Pricing:

- » L33T - 5\$
- » UB3R + - 4\$
- » Normal Member - 6\$
- » Vouch Copys Available - None

No problem, still doing this service. High quality Lockers

Voidlight - May 8, 2014, 9:01 am

Service still available if anyone want it. [35 characters]

Voidlight - May 11, 2014, 7:43 pm

Service still online and ready. FUDing it now.

xN0AHx - May 11, 2014, 8:03 pm

Vouch for suicide, just bought the survey locker and it worked out perfectly fine all went smooth.
GLWS

EDIT:

Only been using the survey locker for 30 minutes on 10 installs and its working great.
