No Problem..

hellrox - May 15, 2010, 2:29 am

This is user dependable?

Because I am not English I am French

SIM-307931 - May 15, 2010, 2:31 am

Does Apocalypse or CyberGate work with external IP? I mean is it possible to control computer which is not in our local network

Thanks in advance

Cheers

Meth - May 15, 2010, 4:27 am

Er, Should add spynet & Cerberus

no vice - May 15, 2010, 4:37 am

Is the link for 1.04.8 or 1.05.12? Your title is one and the scr sht another!

Nice to see jonhyk get a well deserved plug :)

Communication - May 15, 2010, 6:56 am

Not exactly 'MEGA' but thanks, only one RAT there that I recognize and have used.
